This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

GENERAL INDEX

TO THE

FIRST TWELVE VOLUMES OF THE TRANSACTIONS OF THE CLINICAL SOCIETY OF LONDON.

Abscess external to Cæcum, following perforation of the latter by a pin; pyæmia, paracentesis (T. Whipham).....xii. 58
——— connected with diseased Joints, use of the chloride of zinc solution in treatment of (C. De Morgan).....i. 138
——— in or about the Kidney opening externally (R. Southey) i. 58
——— injury to Liver, resulting in rupture, diffuse peritonitis, second abscess into colon, &c. (J. Harley).....iv. 13
——— of Liver and Empyema, case in which Paracentesis thoracis was performed (J. P. Irvine).....x. 174
——— in a case of Foreign Body through the right Lung, recovery (W. H. Day).....vi. 126
Abscesses, fascial, of the Thigh, in a case of Amputation for Gunshot wound of the Leg (J. Crouch).....ii. 43
Absence of both Arms, congenital (Thos. Smith).....vi. 89
——— of the sternal and costal portions of Pectoralis major and Pectoralis minor (J. B. Yeo).....vi. 95
Accounts (Annual) of the Society. See *Balance Sheets*
Acid. See *Chrysophanic, Salicylic, Sulphuric*
Acne, confluent, caused by Bromide of Potassium (Wm. Cholmeley).....iii. 38
Acupressure, comparative merits of, with those of Torsion (J Cooper Forster).....iii. 55
——— process of Occlusion in Arteries after, as compared with ligature and torsion (F. J. Gant).....iv. 95
——— of the Brachial Artery, acute suppuration of the hand and forearm treated by (C. H. Moore).....ii. 61

BARWELL (Richard) on a case of Excision of a lingual Epithelioma by Petrequin's 'Thermo-cautère' ..... x. 123
——— remarkable condition of limb after Resection of the Knee ..... ix. 173
——— two cases of left Lumbar Colotomy, the one under the care of Dr. Silver and Mr. Barwell, the other under that of Mr. Barwell ..... xii. 110
——— *Remarks* in the discussion on Pyæmia..... vii. lxxxvi
——— *Report* on G. Brown's case of acute Arthritis of knee-joint in an infant..... ix. 182
BASTIAN (H. Charlton), *Remarks* in the discussion on Pyæmia, vii. lxiii
——— *Report* on E. H. Greenhow's case of motor Asynergy.. i. 98
Bathing, cold, cases of temporary Albuminuria the results of (G. Johnson)..... vii. 42
——— See *Cold Baths*
BÄUMLER (Christian), cases of Hæmoptysis, followed by inflammatory changes in the lungs [with temperature chart]..... ii. 83
——— six cases of partial and general idiopathic Pericarditis...v. 8
——— case of Enteritis illustrating the dangerous effect which a purgative may have in such cases..... v. 223
——— See *Report* of Committee on Temperature in Syphilis
Bazin (E.), his recently described disease, 'Hydroa,' *reference to* (J. Hutchinson)..... viii. 151
Belladonna, &c., in treatment of Tetanus (J. W. Ogle)..... iv. 8
BELLAMY (Edward), case of unusually large Calculi removed by external Incision from a sac communicating with the Penile Urethra..... xi. 22
——— a rare form of Intestinal Obstruction due to the Invagination of a portion of Ileum in the walls of the Rectum, gastrotomy, recovery from operation..... xii. 115
BIGELOW (Henry J.), Litholapaxy, or Lithotrity with immediate evacuation [with woodcuts of the author's Lithotrite and aspirating siphon] ..... xii. 17
Billroth (Theod.), case of stretching of Ischiatic nerve, *referred to* (G. W. Callender)..... vii. 102 (*note*)
Bladder, Extroversion of. See *Ectopia vesicæ*
——— Papilloma of the, excision, death (A. T. Norton)...xii. 210
——— Paresis of, in a case of double facial [and other] Paralysis, recovery under anti-syphilitic treatment (T. Buzzard)...vii. 75
——— scrofulous Ulceration of the, running an unusual course (E. Humby)..... viii. 50
——— Foreign body in, extracted by external Urethrotomy, recovery (C. Heath)..... xii. 143

Bladder, supra-pubic Incision into, for relief of traumatic stricture caused by compound Fracture of the Pelvis (H. G. Howse) xii. 9
——— Inflammation. See *Cystitis*
——— Injection of opiates into, in a case of Cystitis (J. Cooper Forster)....vi. 18
——— Tapping of, above the pubes, in a case of Retention of Urine from impermeable Urethral stricture (J. W. Hulke)...xii. 178
Bleeding, case of Convulsions treated by (W. H. Broadbent) xi. 55
Blindness, temporary, in a case of Embolism of right posterior cerebral artery, &c. (W. H. Broadbent)....ix. 61
Blocking. See *Corpus Cavernosum; Veins*
Blood, Circulation of the, case illustrating its condition in Bright's disease (B. Sanderson)....i. 168
——— white Corpuscles of, increase of. See *Leucocythæmia*
———loss of, in Operations, case illustrating the prevention of by Esmarch's elastic Bandaging (H. Arnott)....vii. 46
Blood-cyst of the hand, case of (J. W. Haward)....vii. 93
Bloodless Surgery (F. Esmarch)....viii. 1
Bloody fluid, Effusion of, into right Pleural cavity, at the age of 76, paracentesis, recovery (W. H. Broadbent)....xi. 136
Bones, cranial, case of Thickening of, in an infant, due to congenital Syphilis (R. Bridges)....xii. 140
——— ——— See *Cranium*
——— occipital, Necrosis of, in connection with wasting of part of the tongue (Sir J. Paget)....iii. 238
——— Tarsal. See *Tarsal Bones*
——— wedge of bone removed from the Tarsus, in treatment of Talipes varus (T. Bryant, reported by C. Wood)....xii. 36
Bougies, filiform, in treatment of Retention of Urine from impassable stricture (W. F. Teevan)....iv. 124
Brain disease, case of Vertigo simulating, and produced by strain of the convergence muscles of the eyes (R. B. Carter)...viii. 12
——— mischief in a case of naso-pharyngeal Polypus, operation, death (J. C. Forster)....iv. 159
——— cerebral symptoms in a case of acute Rheumatism, without hyperpyrexia, recovery (E. H. Greenhow)....vii. 172
———atrophy of the, case of, with great depression of Temperature several days before death (E. H. Greenhow)....iii. 164
——— concussion of the, Paralysis of the senses of smell and taste following (B. Yeo)....v. 219
——— Hæmorrhage into the anterior lobe, in a case of Thrombosis of the cavernous sinus (T. S. Dowse)....ix. 47

Brain, case of disseminated Sclerosis of Spinal cord (T. Buzzard).....viii. 121
——— Softening of. See *Softening*
——— Tumour of (A. B. Duffin).....ix. 183
——— tumours in right occipital lobe and second ascending parietal convolution, in a case of left Hemiplegia (W. H. Broadbent) v. 233
——— Vaso-motor centres of, partial Epilepsy apparently due to a lesion of one of (W. A. Sturge).....xii. 162
——— Membranes. See *Meningeal* congestion, *Meningitis*
Breast, Cancer of, case (W. B. Kesteven).....ix. 77
——— ——— of left, two cases, the first of eight years', the second of less than twelve months' duration (T. W. Nunn).....vi. 47
——— ——— two cases (T. W. Nunn).....xi. 98
——— ——— two cases, treated by Condurango (J. W. Hulke) v. 113
——— ——— three cases, treated by Condurango (C. De Morgan) v. 123
——— ——— See also *Cancer*
Breast, primary Scirrhus of, treated by Caustics and incisions (W. B. Kesteven).....vi. 147
——— recurrent Tumour of (J. W. Haward).....vii. 106
Bridges (A. C.), *notes* of Dr. Broadbent's case of hysterical Anæsthesia .....xi. 13
Bridges (Robert), case of Thickening of the Cranial Bones in an infant, due to congenital Syphilis .....xii. 140
Bright's disease, case illustrating the condition of the circulation in (B. Sanderson).....i. 168
——— in a Syphilitic subject, death in the second stage, when the kidney was still large and pale (R. Southey) .....vii. 9
Bristowe (J. S.) cases of Ascites treated successfully with Tonics ii. 12
——— case of Aphemia of nine months' duration, in which Speech was restored by the education of the organs of articulation iii. 92
Broadbent (William Henry), Manganese, nickel and zinc in Anæmia, chlorosis, and associated disorders.....ii. 122
——— cases of Paralysis of the soft Palate resembling Diphtheritic Paralysis .....iv. 92
——— cases of Skin disease treated by Phosphorus.....iv. 126
——— case of Paralysis of the Ophthalmic and superior maxillary divisions of the fifth Nerve, of the fourth nerve, &c., from syphilitic disease of the base of the cranium.....iv. 102

BROADBENT (William Henry), case of Tumour in left half of floor of fourth Ventricle, with small tumours in cerebellum.....v. 66
——— Paralysis of Left Face, lateral deviation of Eyes to right, loss of sensation &c., sudden death; tumours probably syphilitic, in pons and medulla oblongata.....v. 173
——— Left Hemiplegia, with convulsion of Paralysed parts, and impairment of Sensation, vomiting, followed by Coma; tumour occupying right occipital lobe; with tumour on second parietal convolution.....v. 233
——— absence of Pulsation in both Radial Arteries, the vessels being full of Blood.....viii. 165
——— Embolism of right posterior cerebral Artery with Yellow Softening of occipital lobe, producing temporary blindess, uncontrollable movement of right limbs &c.....ix. 61
——— case of Effusion into left Pleural cavity, paracentesis and aspiration of serum, sudden death by syncope (?).....x. 24
——— case of hysterical Anæsthesia of both legs below the knee, treatment by Metallic bands, cure.....xi. 13
——— cases of spurious Aphasia; Hemiplegia with peculiar phonation, &c .....xi. 37–40
——— case of Convulsions treated by Venesection.....xi. 55
——— case of rapid effusion of Bloody fluid into the right Pleural cavity, at the age of 76, paracentesis, recovery.....xi. 136
——— case of right Pleurisy with effusion, sudden death...xi. 140
——— *notice* of Professor Charcot's experiments on Hysterical Anæsthesia .....xi. 15
——— *Remarks* on J. B. Walker's case of left Hemiplegia and Hemianæsthesia [cases of spurious Aphasia].....xi. 32, 34
BRODHURST (Bernard E.), cases of subcutaneous section of the neck of the Thigh-bone.....x. 91
Brodie (Sir Benj.), notice of a case of watery fluid from the nostril, in Polypi of the antrum (Sir J. Paget).....xii. 45
Bromide. See *Ammonium, Potassium*
Bronchi. See *Diphtheritic* membrane in
Bronchiectasis and localised Empyema treated by Tapping (C. T. Williams) .....xii. 47
Bronchocele, on treatment of cystic and fibro-cystic, with cases (M. Mackenzie) .....vii. 115
Bronchus, right, foreign body impacted in (R. Barwell).....vi. 120
Bronzed skin. See *Skin* (bronzed)
BROWN (George), case of reduction of partial Dislocation of the Astragalus of long standing.....ix. 71

BROWN (George), acute Arthritis of Knee-joint, and Necrosis of tibia in an infant eight months old, amputation, recovery ...ix. 175
——— ——— *report* on ditto by R. Barwell, J. F. Goodhart, and T. P. Pick.....ix. 182
——— case of Cancer supervening in Ichthyosis Linguæ of twelve years' standing, removal of diseased portion, recurrence, excision of tongue, recovery.....x. 125
——— sequel of ditto.....xi. 222
——— Gas in the Peritoneal cavity in Typhoid fever, relieved by puncture .....xii. 235
Browne (Lennox), paper on Stenosis of the Larynx, *notice of* (F. Semon) .....xii. 185
BRUCE (Alex.), case of acute Laryngitis with spasm of the glottis treated by Tracheotomy .....ii. 39
Bruit, systolic aortic, in case of exophthalmic Goitre (M. Mackenzie) .....i. 9
——— mitral and aortic, in exophthalmic Goitre (M. Mackenzie) ..... i. 11
——— pre-systolic, in Cardiac disease after Rheumatism (S. O. Habershon) .....v. 62
BRUNTON (T. Lauder), Nitrite of Amyl in Angina pectoris [with sphygmographic tracings] .....iii. 191
BRYANT (Thomas), on Tracheotomy as a means of cure in chronic Laryngeal disease, three cases .....i. 127
——— two cases of Recto-vesical Fistula, treated by Colotomy ..... v. 127
——— notes of a case of compound Fracture at the wrist (G. W. Callender)..... .....vii. 100
——— cases to illustrate the behaviour of Carbolised catgut Ligatures, upon human arteries [with plate of preparations of arteries].....xi. 1
——— case in which sudden death followed the operation of Tapping an Hydatid Cyst of the Liver.....xi. 230
——— ——— *post-mortem* by Hilton Fagge .....xi. 232
——— case of Talipes varus treated by the removal of a wedge of Bone from the Tarsus, reported by C. Wood [with woodcut illustrations] .....xii. 36
——— acute Intestinal Obstruction, laparotomy, removal of a large impacted gall-stone from the Ileum: death from peritonitis [with plate].....xii. 106
——— case in which a Biliary Calculus was removed by operation from the Gall Bladder, and a cure resulted.....xii. 201
——— *Remarks* in the discussion on Pyæmia .....vii. lx

BRYANT (Thomas), *Report* on C. Holthouse's case of chronic rheumatic Arthritis ..... i. 68
BUCHANAN (George), *Report* on Dr. Marcet's case of temporary loss of voice ..... i. 91
Buckland's (Dean) case, Caries of atlas and axis, *referred to* (J. W. Haward) ..... viii. 11
Bulbar paralysis, case of recovery from (T. S. Dowse) ..... ix. 80
Burn, extensive, healed by Skin-Grafting (G. D. Pollock and J. W. Haward) ..... iv. 37–48
——— See *Skin-Grafting*
BUZZARD (Thomas), case of acute Rheumatism in an epileptic with obscuration of the first sound of the heart ..... ii. 77
——— case of supposed Lepra anæsthetica ..... iii. 152
——— ——— *Report* on ditto by George W. Callender and C. Hilton Fagge ..... iii. 161
——— ——— case of Lepra anæsthetica, 1870, *referred to and described* (F. E. Anstie) ..... v. 196
——— case of cervico-brachial Neuralgia treated with the Constant Current ..... iv. 164
——— case of unilateral face Atrophy dating from an attack of chorea [with woodcut] ..... v. 146
——— case of double facial Paralysis, with paralysis of four extremities, general anæsthesia, paresis of bladder, recovery under anti-syphilitic treatment ..... vii. 75
——— case of Tumour in the left hemisphere of the Cerebellum, with smaller tumour in the right half of the medulla oblongata vii. 165
——— case of recovery from Melancholia, after refusal of food and obstinate silence during four years ..... viii. 31
——— case of disseminated Sclerosis of the Brain and spinal cord viii. 121
——— a railway case: Shock from unexpected descent on soles of the Feet, paresis of extremities, tremor of tongue and jaw, and persistent glycosuria ..... ix. 145
——— case of imperfect right Hemiplegia with slight Aphasia, double Optic Neuritis, and temporary obliteration of right brachial artery [with sphygmographic tracings of right and left radial pulse] ..... xi. 205
——— *Report* on E. H. Greenhow's case of motor asynergy ... i. 98
——— *Report* on ditto ..... i. 152
——— *Report* on ditto ..... ii. 135
Bye-Laws of the Society ..... i. xxvii
——— ——— *additional* ..... ii. xxvii

Bye-Laws of the Society, revised .....vii. xxxv

Cacotrophia Folliculorum (T. Fox) .....xi. 163
CADGE (William), of Norwich, *Remarks* in the discussion on Pyæmia vii. xci
Cæcum and Appendix, Perforation of, by a pin, abscess external to cæcum, pyæmia, paracentesis &c. (T. Whipham).....xii. 58
Calabar Bean, successful treatment of subacute traumatic Tetanus, by (C. Holthouse) .....ii. 100
Calculi, Biliary, remarkable case of, in which the question of the advisability of operation was raised (F. H. Daly) .....x. 11
Calculus, Biliary, removed by operation from the Gall Bladder; cure (T. Bryant) .....xii. 201
——— ——— intestinal obstruction caused by the impaction of a (J. S. Gray) .....vi. 193
——— ——— large impacted, removal from the Ileum, in laparotomy for acute intestinal obstruction, death from peritonitis (T. Bryant) .....xii. 106
——— Urethral, large, case of (Sydney Jones).....xi. 23
Calculus, Urinary, large, four cases of operation for unusually large, [by free incision and division of the prostate] (W. F. Teevan) iv. 84
——— ——— unusually large, removed by external incision from a sac communicating with the Penile Urethra (E. Bellamy) xi. 22
——— ——— not discovered in a case of Lithotomy (T. Holmes) ii. 67
CALLENDER (George W.), description of an operation for Cleft Palate .....i. 173
——— case in which Colotomy was performed for the relief of Cancer of the Rectum .....iii. 36
——— note of cases of Amputation in which Ligatures have been used [statistics of results at St. Bartholomew's Hospital, 1853–70] .....iii. 111
——— on the reduction of an old Dislocation at the shoulder iv. 195
——— note on the Dressing of Wounds [cleansing with a camel's hair brush].....vi. 74
——— case of Intestinal obstruction .....vi. 189
——— ——— *table* of pulse, temperature and respiration during the case.....vi. 190
——— Neuralgia treated by stretching the Median Nerve vii. 100

CALLENDER (George W.), Neuralgia of the hand, treated by Amputation of the little and ring fingers, and of part of the index finger.....vii. 104
——— experiences with Salicylic acid .....ix. 9
——— note on Tendon Ligatures .....xi. 103
——— *address as President*, Jan. 1877 .....x. 1
——— *Remarks* in the discussion on Pyæmia .....vii. lxxxi
——— *Report* on W. H. Day's case of discharge of Chylous Fluid .....ii. 112
——— *Report* on E. Clapton's paper on the effects of Copper in the system .....iii. 13
——— *Report* on T. Buzzard's case of supposed Lepra anæsthetica iii. 161
——— *Report* on Thomas Smith's case of Vaccino-Syphilis.. iv. 55
——— See *Gray* on Intestinal impaction of a Gallstone
——— See *Packard* on a Bracketed Splint
Camphor, concentrated solution of, cases of Poisoning by (G. Johnson).....vii. 28
Cancer of the Breast, case of (W. B. Kesteven).....ix. 77
——— ——— two cases (T. W. Nunn).....xi. 98
——— ——— two cases treated with Condurango, a South American remedy [without effect] (J. W. Hulke) .....v. 113
——— ——— three cases, treated with Condurango [ineffectually] (C. De Morgan).....v. 123
——— ——— two cases, the first of eight years', the second of less than twelve months' duration (T. W. Nunn).....vi. 47
——— ——— See *Scirrhus*
——— of Liver, acute, with pyrexia (C. Murchison).....ix. 27
——— of the Œsophagus, with external openings, and involving the Larynx (C. Heath).....i. 70
——— of the Rectum, case of colotomy for the relief of (G. W. Callender) .....iii. 36
——— of Tongue, case of removal of the tongue for (H. Lee) iv. 114
——— ——— recurrent, treated by ligature of the lingual artery (W. Haward).....x. 129
——— ——— case of, following Ichthyosis of the Tongue (Sir Jas. Paget) .....iii. 88
——— ——— supervening on Ichthyosis linguæ [of twelve years' standing], removal, recurrence, excision of tongue, recovery (G. Brown).....x. 125
——— ——— ditto, sequel to a case of in vol. x. of the 'Transactions' (G. Brown).....xi. 222

Cancer, Encephaloid, of the Femur, treated by Electrolysis (Lawson Tait) .....iv. 145
——— Medullary, of left half of the soft Palate (J. Langton) iii. 61
——— Rodent, of the face, extensive, extirpated by Excision and Cauterisation (J. W. Hulke) .....v. 22
——— ——— of the face, treated with Condurango [without effect] (J. W. Hulke) .....v. 122
——— ——— involving right upper eyelid, orbit, and nose, treated successfully by excision and caustics (G. Lawson) v. 26
——— (Scirrhous) of Pylorus, with encephaloid infiltration of left Lung and Supra-renal capsules (R. Southey) .....viii. 15
——— Soft, in the Parotid region, cured by Caustics (H. Arnott) vi. 85
Carbolic acid treatment in comminuted Fracture of the femur (A. E. Durham).....i. 134
Carbolised Catgut. See *Ligatures*
Carbuncular inflammation of the Face, three cases (T. Smith) iii. 63
Cardiac disease and disturbance. See *Heart*
——— murmurs, case of loud musical, probably produced by rupture of aortic valve (B. Yeo) .....vii. 155
——— ——— See *Heart*
Caries of the Atlas and axis, case of (J. W. Haward) .....viii. 7
Caries of the Knee-joint, treated by local application of Sulphuric acid (J. W. Haward).....vi. 13
Carter (Robert Brudenell), three cases of Optic Neuritis ...iv. 32
——— case of presumed injury to the Ciliary Nerves of the Eyeball .....iv. 59
——— case of Paralytic Strabismus cured by Tenotomy and localised Faradisation with the primary current .....v. 69
——— case of Sarcomata of both Irides .....vii. 60
——— case of orbital Sarcoma, treated successfully by Excision and Cautery [with woodcut of microscopical appearances] vii. 62
——— case of Vertigo simulating Brain Disease, and produced by strain of the convergence muscles of the eyes.....viii. 12
——— method of performing Iridectomy for the improvement of sight [with lithograph and woodcut illustrations] .....ix. 1
——— *Remarks* in the discussion on Pyæmia .....vii. liv, lxxxix
Carter (Vandyke) on Lepra anæsthetica, *referred to* .....iii. 158
Casares (Dr.) on the effects of Condurango .....v. 114

Caseous deposit in the middle Ear causing general miliary Tuberculosis and pyæmia (H. Weber) ....viii. 131
Cataract, on extraction of, with cases (C. B. Taylor) ....ix. 55
Catarrh of the Tonsil, acute and chronic, two cases (A. T. Norton) vii. 176
Catgut. See *Ligatures*
Catheter, silver, end of, in the Bladder, extracted by external Urethrotomy (C. Heath) ....xii. 143
Caumack (—) *of Boston*, particulars of a case of Carbuncle of the face (T. Smith) ....iii. 65
Caustics (and cauterisation), soft malignant Tumour in the Parotid region cured by (H. Arnott) ....vi. 85
——— and incision, case of primary Scirrhus of the breast, treated by (W. B. Kesteven) ....vi. 147
——— and excision in extirpation of Rodent Cancer (J. W. Hulke) ....v. 22
——— ——— (G. Lawson) ....v. 26
——— ——— case of orbital Sarcoma treated successfully by (R. B. Carter) ....vii. 62
Cautery See *Escharotics*
——— actual, and ligature in treatment of orbitar Nævus (W. Spencer Watson) ....vi. 166
CAVAFY (John), case of acute Rheumatism treated by salicylate of soda; intercurrent Scarlatina and peculiar skin-eruption [with chart of temperature] ....x. 88
Cavernous sinus, Tumours of, paralysis of cranial nerves referable to, cured by iodide of Potassium (W. Moxon) ....v. 45
——— Thrombosis of, sudden loss of vision, &c. (T. S. Dowse) ix. 47
Cavities, rapid contraction of, in Phthisis, three cases (C. T. Williams) ....v. 27
Cavity, rapidly contracted, in Phthisis [sequel to a case in vol. v., 1871, p. 29] (C. T. Williams) ....x. 27
——— tinkling, contraction of, in chronic Phthisis (C. T. Williams) x. 113
CAYLEY (William), post-mortem examination of Dr. B. Sanderson's case illustrating the condition of the circulation in Bright's disease [with sphygmographic tracings by J. B. Sanderson] i. 171
——— fatal case of Hæmoptysis ....vii. 89
——— case of Empyema, in which washing out the pleural cavity was followed by convulsions and death ....x. 16

CAYLEY (William), case of Gangrene of the Lung treated by incision [with plate] ....xii. 136
——— *Report* of the minute examination of the spinal cord in S. J. Goodfellow's case of sudden Paraplegia....iii. 190
——— *Report* on microscopical appearances of muscles and spinal cord in Dr. Greenhow's case of progressive muscular atrophy v. 214
——— and George LAWSON, case of Intestinal obstruction for which gastro-enterotomy was performed....xii. 74

——— *Remarks* in the discussion on Pyæmia .....vii. lxii
——— notes of a case of Concussion of the Brain (Burney Yeo) v. 219
CROUCH (John), case of Gunshot Wound of the leg, amputation during collapse below the knee-joint; traumatic delirium, fascial abscesses of thigh, recovery .....ii. 43
Cystitis, case of, with extreme pain and incontinence of Urine, treated by injection of opiates into the bladder (J. Cooper Forster) .....vi. 18
Cysts in the Cerebellum, case of (J. L. Clarke) .....vi. 68
——— See *Hydatid* cyst
Cystotomy, a case of (W. F. Teevan) .....xii. 148

DALBY (W. B.), wound of the Portio dura causing facial palsy vi. 67
——— on traumatic rupture of the Tympanic membrane, five cases vi. 178
——— case of a Foreign body impacted in the external Auditory meatus .....viii. 6
DALY (Fred. H.), remarkable case of Gall-stones, in which the question of the advisability of operation was raised.....x. 11
Danielssen and Boeck on Lepra anæsthetica, *referred to*...iii. 157–60
DAVIS (J. Hall), Chorea complicating Pregnancy treated by bromide of Ammonium and arsenite of Potash, later by the bromide of Ammonium only.....ii. 73
Davy's (Rich.) Lever for arresting Hæmorrhage; *notice of* (A. P. Gould) .....xii. 172
DAY (W. H.), on a form of Enlargement of the right leg and thigh, with an occasional discharge of Chylous fluid .....ii. 104
——— ——— *report* on ditto, by J. B. Sanderson and G. M. Callender... .....ii. 112
——— ——— Appendix A. Case of varicose Lymphatic vessels of the right lower extremity, by Berkeley Hill .....ii. 114
——— ——— Appendix B. Case of enlargement of right lower extremity with flow of Milky-looking lymph from behind the ankle, by Wm. Cholmeley.....ii. 116
——— sequel and fatal termination of a case of Lymphatic En-

largement of the right leg and thigh [See 'Transactions,' vol. ii. p. 104] .....xi. 214
DAY (W.H.), on the Hypophosphites of iron, quinine, and strychnia in cases of general debility and nervous exhaustion .....iii. 1
——— passage of a Foreign body through the right lung, pneumonia, abscess, recovery .....vi. 126
——— Ascites in a young child, treatment by Paracentesis and Copaiba, recovery .....x. 160
Death, apparent, from Epileptiform fits, in a case of Apoplexy, restoration by artificial respiration (A. Leared).....iii. 131
——— sudden, following Tapping of a Hydatid cyst of the liver (T. Bryant) .....xi. 230
——— ——— in effusion into left Pleural cavity, aspiration of serum (W. H. Broadbent) .....x. 24
——— ——— following the washing out of the Pleural cavity in Empyema (W. Cayley) .....x. 16
——— ——— from the Nerve-centres with excessive temperature, in Rheumatic fever (H. Weber) ..... i. 21
Debility, general, use of the Hypophosphites in (W. H. Day) iii. 1
Degeneration. See *Fatty* degeneration
Deglutition, impairment of, in Paralysis of left face (W. H. Broadbent).....v. 173
Delirium and high temperature in a case of acute Rheumatism, treated by cold affusion, death (R. Southey) .....vi. 1
——— traumatic, in a case of Amputation for Gunshot Wound of the leg (J. Crouch) .....ii. 43
DE MORGAN (Campbell), use of chloride of Zinc solution in the treatment of Abscess connected with diseased joints .....i. 138
——— Fracture of the base of the Skull, with slight immediate symptoms, subsequent coma and hemiplegia, death .....iii. 17
——— three cases of Cancer treated with Condurango .....v. 123
——— *Remarks* in the discussion on Pyæmia .....vii. lix
Dengue, period of incubation of (C. Murchison) .....xi. 248
De Quincy on the effects of Opium-eating, *referred to* (T. Whipham) .....viii. 116
Dermatolysis. See *Elephantiasis* Arabum
Development, arrested, of the Bones of the skull, congenital tumours from (J. Hutchinson) .....ix. 15
Diabetes Mellitus, case of, successfully treated by the Skim-milk method (A. S. Donkin) .....vii. 157
——— cases, ditto, Dr. Fyffe's, &c. (A. S. Donkin) .....vii. 161–2
——— two cases, ditto (A. S. Donkin) .....ix. 34

Diabetes Mellitus, case of, treated with Skimmed milk (E. H. Greenhow) .....vi. 182
——— case of, treated with Opium (H. Thompson) .....iv. 153
——— case, treated by large doses of Opium (J. B. Sanderson) ii. 163
——— successfully treated by Opium, without restriction of diet (F. W. Pavy) .....ii. 44
——— ——— addendum, second case (F. W. Pavy).....ii. 53
Diarrhœa, two cases illustrating the curative action of Ipecacuanha in (J. Thorowgood) .....vi. 171
——— fatty, treated by pancreatic extract (Langdon Down) ii. 119
Dickinson (W. H.), *report* on Dr. Greenhow's case of paroxysmal Hæmaturia .....i. 54
——— *Report* on R. J. Lee's case of Creeping Eruption.....viii. 45
Diet, limited, and enforced rest, in treatment of Aneurysm of left subclavian and axillary arteries (J. W. Hulke).....xi. 123
——— non-restriction of, in Diabetes Mellitus treated by opium, (F. W. Pavy) .....ii. 44
Digitalis, effect of, in a case of Cardiac Hypertrophy of obscure origin (Handfield Jones) .....i. 148
——— cases [of acute inflammation of joints, &c.] treated with, as a topical remedy (F. R. Fairbank).....iv. 142
Diphtheria, question of contagion of (Sir W. Jenner) .....viii. xl
——— period of incubation of (C. Murchison) .....xi. 248
——— case of, followed by Paralysis (E. H. Greenhow).....v. 187
——— tracheotomy in the last stage of, recovery (G. Lawson) xii. 117
——— ditto, ditto (P. Thornton).....xii. 121
Diphtheritic Membrane, deposit of, in pharynx, larynx and bronchi in a case of Scald of the glottis (R. W. Parker).....viii. 144
Diphtheritic [or Diphtherial] paralysis, case of (E. H. Greenhow) iii. 22
——— ——— ditto (E. H. Greenhow) .....v. 187
——— ——— case of, treated with Faradism (E. H. Greenhow) iv. 148
——— ——— simulating Lung-disease (J. P. Irvine) .....ix. 188
——— ——— paralysis of the soft palate resembling (W. H. Broadbent) .....iv. 92
Diseases, acute specific, on the etiology and contagious characters of (Sir W. Jenner's address) .....viii. xxxvi
Dislocation, congenital, of one Knee forward (R. J. Godlee) x. 100
——— old, at the Shoulder, reduction of (G. W. Callender) iv. 195

Dislocation, partial, of Astragalus, of long standing, reduction of (G. Brown) .....ix. 71
Distension of the Antrum of Highmore, three cases (J. W. Haward) v. 131
——— of Bowel, puncture to relieve, in a case of ruptured Intestine (T. Smith).....ii. 64
Diverticulum, intestinal obstruction at the point of departure of a (R. Southey) .....v. 159
Dixon (E. L.), case of lacerated wound of palm of the hand, tetanus, treatment by chloral and brandy .....v. 76
Donkin (Arthur Scott), case of Diabetes successfully treated by the Skim-milk method .....vii. 157
——— two cases of Diabetes successfully treated by the Skim-milk method.....ix. 34
——— his treatment of Diabetes with skimmed milk, *reference to* (E. H. Greenhow).....vi. 188
Douche. See *Cold Douche*
Down (Langdon), case of fatty Diarrhœa, treated by pancreatic extract.....ii. 119
Dowse (Thomas Stretch), case of chronic Lead Poisoning, acute diffuse paralysis, suppression of urine, death .....viii. 124
——— Thrombosis of the Cavernous sinus, sudden loss of vision, and hæmorrhage into anterior lobe .....ix. 47
——— case of recovery from Bulbar Paralysis.....ix. 80
——— on a fatal case of Syphilis contracted from the hereditary form of the disease.....x. 169
——— case of Cerebro-spinal lateral Sclerosis [with plate of microscopical sections of the medulla oblongata and spinal cord] xi. 18
Drainage of the side by a fine canula in a case of Pleuritic effusion (R. Southey).....xii. 81
Duckworth (Dyce), case of true Keloid of Alibert.....iii. 118
——— on four cases of Molluscum contagiosum which occurred in one family.....v. 205
——— case of Favus of the scalp, tinea favosa.....vii. 156
——— case of Favus of the scalp and body, tinea favosa... viii. 107
——— case of Morphœa.....ix. 78
——— two cases of Iodide of Potassium rash.....xii. 39
——— *Report* on R. J. Lee's case of Creeping eruption.....viii. 45
Duct, omphalo-mesenteric, probable remains of, in a case of Intestinal obstruction (R. Southey).....v. 159
——— ——— persistent, in a case of Intestinal obstruction (R. Southey) .....v. 162

Ductus arteriosus, patent, with a thrill and two murmurs in a case of Phthisis (E. H. Greenhow) .....ix. 152
DUFFIN (Alfred B.), cases of Syphilitic Rheumatism.....ii. 81
——— cases of Roseola variolosa .....iv. 117
——— on the value of Puncture in Hydatid tumour of the Liver [seven cases] ..... vi. 23
——— case of Menière's Disease.....ix. 94
——— case of cerebral Tumour.....ix. 183
——— ——— notes on ditto, by D. Ferrier.....ix. 187
——— see *Report* of Committee on Temperature in Syphilis
DUPRÉ (—), analysis of the fluid from a Spina bifida .....xi. 79
Dura Mater. See *Meningeal* congestion, *Meningitis*
DURHAM (A. E.), case of comminuted and secondarily compound Fracture of the Femur, extending into the knee-joint; treatment by Carbolic acid... .....i. 134
——— case of spontaneous Fracture of the Femur .....iv. 63
——— cases of Gastrotomy (in Holmes's Surgery), *notice* of (T. Smith).....v. 240
——— on foreign bodies in the air-passages, *notice* of (R. Barwell) vi. 123
——— *Remarks* in the discussion on Pyæmia .....vii. xcv

Ear, middle, acute Suppuration of, causing Pyæmia, three cases (H. Weber).....viii. 131
——— chronic Inflammation and caseous deposit in, causing general miliary Tuberculosis with pyæmia (H. Weber).....viii. 131
——— see *Meatus* (auditory) *Tympanic* membrane
Ectopia Vesicæ, case of (T. Smith).....i. 69
EDIS (Arthur W.), case of right Hemiplegia occurring suddenly during pregnancy, continuance of symptoms until parturition, then rapid improvement and convalescence.....vi. 195
Effusion in Pericarditis, in a case of acute rheumatic fever (J. W. Ogle) .....vi. 131
——— into left Pleural cavity, paracentesis and aspiration of serum, sudden death by syncope (W. H. Broadbent).....x. 24
——— rapid, of Bloody fluid into right Pleural cavity, paracentesis, recovery (W. H. Broadbent).....xi. 140
——— in a case of right Pleurisy (W. H. Broadbent).....xi. 140
——— see *Pleuritic Effusion*
Elbow-joint, case of Excision of (C. F. Maunder).....x. 203
——— limitation of Flexion of, sole permanent injury in a case of recovery from fracture of both humeri (J. W. Hulke) ..xii. 1
——— Suppuration of, puncture, recovery (W. MacCormac) vi. 113

Elbows, Excision of both (T. Holmes)..... .....i. 143
Electricity, treatment of cervico-brachial Neuralgia with the constant current (T. Buzzard)..... iv. 164
——— ditto ditto, apparently cured (F. E. Anstie).....iv. 171
——— double occipital Neuralgia not relieved by (F. E. Anstie) iv. 171
——— cases of local Paralysis treated by (F. E. Anstie) ...iii. 147
Electrolysis, encephaloid Cancer of the Femur, treated by (Lawson Tait) .....iv. 145
——— cases of Epulis treated by (T. W. Nunn).....xi. 157
——— use of, in Hydatid tumour of the liver by Dr. Fagge—*notice* (A. Duffin).....vi. 33
Electro-magnets, value of, for removal of Iron or Steel chips from within the Eye (M. McHardy).....xi. 128
Elephantiasis of the Leg (A. T. Norton).....i. 16
Elephantiasis Arabum, two unusual cases of (G. Fritsche) ...vi. 160
Elliotson (John), notice of Watery fluid from the Nostril, in a case of Polypi of the antrum (Sir Jas. Paget).....xii. 45
Embolism, in Cardiac disease after Rheumatism (S. O. Habershon) v. 62
——— of Basilar Artery, death from, after recovery from ligature of the femoral artery for popliteal aneurism (A. T. Norton) x. 109
——— ——— left Hemiplegia, &c., probably due to (J. B. Walker) xi. 32
——— of right posterior Cerebral Artery, with yellow softening of occipital lobe, temporary blindness, uncontrollable movements of right limbs, &c. (W. H. Broadbent).....ix. 61
Emetic, new, with remarkable powers, without local irritation—Apomorphia (S. Gee) .....ii. 166
Empyema, death from, in a case of spontaneous cure of Aneurism of the arch of the aorta nearly completed (E. H. Greenhow) ix. 109
——— following Perforation of Cæcum by a pin, paracentesis (T. Whipham) .....xii. 58
——— co-existing with Abscess of the Liver, case in which paracentesis thoracis was performed (J. P. Irvine).....x. 174
——— case of, in which washing out the Pleural cavity was followed by convulsions and death (W. Cayley).....x. 16
——— localised, and Bronchiectasis treated by tapping (C. T. Williams) .....xii. 47
Encephaloid infiltration of left Lung and Supra-renal capsules, in a case of Cancer of pylorus (R. Southey).....viii. 15

Endosteal Sarcoma. See *Sarcoma* (myeloid)
Enlargement of right leg and thigh, with occasional discharge of Chylous fluid (W. H. Day).....ii. 104
——— of the right lower extremity with flow of milky-looking Lymph (W. Cholmeley).....ii. 116
Enteric fever, period of Incubation of (C. Murchison).....xi. 245
——— case treated with Salicylate of Soda (C. Murchison)...x. 187
Enteritis, case of, illustrating the danger of a Purgative in such cases (C. Bäumler) ....v. 223
Enteritis, gastro-, from local irritants, simulating Cholera (C. Murchison)..... .....ii. 178
Enterotomy, gastro-, successful case of, in a male aged 68 [artificial anus in small intestine] (C. F. Maunder).....ix. 102
——— ——— sequel to the case [in vol. ix. p. 102] (C. F. Maunder).....x. 7
——— in a case of Intestinal obstruction (Wm. Cayley and Geo. Lawson) .....xii. 74
Epilepsy, severe, cured by excision of a Neuroma (R. Barwell) viii. 27, 29
——— recurrence of, in a case of Trismus excited by a Foreign body in a wound on the cheek (Geo. Johnson) .....vi. 38
——— Chorea complicated with, in the adult male (J. Althaus) xi. 62
——— partial, case of, apparently due to a lesion of one of the Vaso-motor centres of the Brain (W. A. Sturge) .....xii. 162
Epileptic, acute Rheumatism in an, with obscuration of the first sound of the heart (T. Buzzard) .....ii. 77
Epileptic stupor, on a fatal case of (Handfield Jones).....iii. 123
Epileptiform convulsions in a case of exophthalmic Goitre (M. Mackenzie).....i. 12
——— ——— apparent death from in a case of Apoplexy ration by artificial respiration (A. Leared) .....iii. 131
Epileptiform stupor in a child, successfully treated with bromide of Potassium (W. B. Kesteven) .....iii. 168
Epistaxis, severe spontaneous, after middle life, cases in private practice (P. G. Hewett) .....vi. xxxvi
Epithelioma supervening after twenty years in a case of Ichthyosis of the tongue (J. W. Hulke) .....ii. 1
——— lingual, case of excision of, by Petrequin's 'Thermo-cautère' (R. Barwell) .....x. 123
Epulis, cases of, treated by Electrolysis (T. W. Nunn) .....xi. 157
Erasion, and linear scarification in a case of Lupus of the face (B. Squire) .....xi. 61

ERICHSEN (John E.), *Remarks* in the discussion on Pyæmia vii. lxviii
Eruption. See *Skin* Eruptions
——— undescribed, occurring in a tuberculous child (T. Barlow) x. 196
——— rare, on the fore-arms [resembling that of Vaccination], the result of infection from a Horse (J. Langton) .....x. 121
——— creeping, case of (R. J. Lee) .....viii. 44
——— from bromide and iodide of Potassium. See under *Skin* Eruptions
Erysipelas, question of contagion of (Sir W. Jenner) .....viii. xl
——— period of incubation of (C. Murchison) .....xi. 248
——— of the face, abstracts of two cases of (H. Weber) iii. 234–5
Erythema multiforme, œdematous and hæmorrhagic (T. Fox) xi. 85
Escharotics, application of, in Epitheliomatous tumour of the upper Maxilla (G. Lawson) .....vi. 20
——— See *Caustics*
ESMARCH (F.) *per Wm. MacCormac.* Bloodless Surgery.....viii. 1
——— his method of preventing Loss of Blood in operation by elastic bandaging, case illustrating (H. Arnott) .....vii. 46
——— his Bandage and Digital Compression, four cases of popliteal and femoral Aneurism successfully treated by (John Hutchinson) .....xii. 55
EVANS (George H.), *per Wm. Cayley*, case of Dilated Heart, from valvular disease, right ventricle tapped by error, not only without harm, but with relief of the symptoms .....viii. 169
Excision of the Ankle, case of; use of Linhart's chisel (T. Holmes) ix. 122
——— of Elbow-joint, case of (C. F. Maunder) .....x. 203
——— of both Elbows (T. Holmes) .....i. 143
——— removal of large melanotic Sarcoma of the Eye by, and by chloride of zinc paste (G. Lawson).....ix. 31
——— of the Hip-joint, case of, after Sayre's method (J. Croft) vi. 174
——— of the Knee-joint, eight years after the operation (Thomas Smith) .....i. 62
——— ——— remarkable condition of limb after (R. Barwell) ix. 173
——— ——— bracketed splint for (J. H. Packard) .....vii. 96
——— of the Os calcis and Astragalus, in which the second row of tarsal bones was drawn under the malleoli (F. Jordan) x. 166

Excision of lower ends of Radius and Ulna in myeloid Sarcoma of left radius, leaving a useful hand (H. Morris) .....x. 138
——— of the lower part of the Rectum (T. Holmes).....xi. 113
——— partial, of the Shoulder-joint (C. F. Maunder) .....i. 5
——— of Tarso-metatarsal articulations, following removal of second metatarsal bone (T. Holmes).....v. 207
——— of the Tongue, Tracheotomy as a preliminary to (A. E. Barker).....xii. 151
——— ——— in a case of Cancer supervening on Ichthyosis, recovery (G. Brown) .....x. 125
——— of a lingual Epithelioma, by Petrequin's 'Thermo-cautère' (R. Barwell) .....x. 123
——— of lower half of Ulna for Myeloid tumour, recovery (R. C. Lucas) .....x. 135
——— of a Neuroma, severe Epilepsy cured by (R. Barwell) viii. 27–29
——— of a wedge with Linhart's chisel, in badly united Fracture of the bones of the Leg (C. Heath).....x. 158
——— and cauterisation, in extirpation of rodent Cancer of the face (J. W. Hulke) .....v. 22
——— ——— of eyelid, orbit, and nose (G. Lawson) .....v. 26
——— ——— case of orbital Sarcoma treated successfully by (R. B. Carter) .....vii. 62
——— See *Exostosis*
——— subperiosteal, reference to Ollier's and Sayre's methods (T. Holmes) .....viii. 77
——— ——— of Os calcis (T. Holmes) .....viii. 77
——— ——— for removal of Os calcis, dissection of the foot, (T. Holmes) .....xi. 117
——— ——— of the shaft of the Tibia (C. Heath).....x. 132
——— ——— See *Osteotomy* (subcutaneous)
Exertion (physical) see *Overwork*
Exophthalmic Goitre, see *Goitre* (exophthalmic)
Exostosis, two cases of true Subcutaneous operation for (C. F. Maunder).....xi. 59
——— of the Femur, subcutaneous operation for (C. F. Maunder) xi. 59
——— of the Tibia, subcutaneous operation for (C. F. Maunder) xi. 60
——— See *Excision, Osteotomy*
Exudation, see *Fibrinous* exudation
Eye, lateral Deviation of eyes to right, in a case of Paralysis of left face, &c. (W. H. Broadbent).....v. 173

Eye, right, total Loss of, in a case of left Hemiplegia (F. Simms) iv. 139
——— attacks of pain in the Orbit of the, caused by a concretion and cured by its excision, (J. Croft) .....iii. 51
——— protrusion and eversion of, in a case of hydatid tumour of the orbit (G. Lawson) .....ix. 134
——— removal of tumour from floor of orbit, without injury to (G. Lawson).....ix. 33
——— melanotic tumour of, treated by excision of the globe, and application of chloride of zinc paste to the remaining structures in the orbit (Geo. Lawson) .....v. 1
——— ditto, ditto (Geo. Lawson) .....ix. 31
——— See also *Orbit*
——— convergence Muscles of the, case of vertigo simulating brain disease, produced by strain of (R. B. Carter).....viii. 12
——— presumed injury to the Ciliary Nerves of (R. B. Carter) iv. 59
——— Excision of the, in a case of Melanotic tumour (G. Lawson) v. 1
——— value of Electro-magnets for removal of Iron or Steel chips from within the eye (M. McHardy).....xi. 128
Eyelid, preservation of, in excision of melanotic Sarcoma of the Eye (G. Lawson) .....ix. 31
Eyesight. See *Vision*

Face, carbuncular inflammation of the, three cases (Thomas Smith) iii. 63
——— Hypertrophy of the lower parts of (R. Barwell) ...viii. 104
——— Paralysis of left, and loss of sensation in right, with lateral deviation of Eyes to right, &c. (W. H. Broadbent) .....v. 173
——— See *Lupus* of
FAGGE (Hilton), three cases of Parasitic disease of the Nails, associated with different parasitic affections of the scalp and body...i. 77
——— *post-mortem* in T. Bryant's case of Tapping an hydatid cyst of the liver .....xi. 232
——— *report* on Dr. Buzzard's case of supposed Lepra anæsthetica iii. 161
——— treatment of Hydatid tumours of the Liver by electrolysis, *notice* of (A. Duffin) .....vi. 33
FAIRBANK (F. Royston), cases of acute Inflammation of joints, &c., treated with Digitalis as a topical remedy.....iv. 142
Faradisation, case of Diphtherial paralysis treated with (E. H. Greenhow).....iv. 148

Faradisation, localised, and Tenotomy, for cure of paralytic Strabismus (R. B. Carter).....v. 69
FARQUHARSON (Robert), case of Hæmoptysis in a syphilitic patient viii. 71
——— on a rash following the administration of Quinine...xii. 25
Fatty degeneration, acute, of the Heart (T. H. Green).....viii. 160
Fatty tumour, congenital (E. Venning) .....ix. 51
Favus of the Scalp, tinea favosa, case of (D. Duckworth) ...vii. 156
——— ——— ditto, ditto (D. Duckworth).....viii. 107
FAYRER (Sir Joseph), *remarks* in the discussion on Pyæmia vii. cx
Feet. See *Foot*
Femur, encephaloid Cancer of, treated by Electrolysis (Lawson Tait) .....iv. 145
——— fracture of, comminuted and secondarily compound, extending into the knee-joint; treatment by Carbolic acid (A. E. Durham) .....i. 134
——— spontaneous Fracture of the (A. E. Durham) .....iv. 63
——— Necrosis of, without external Inflammation (Sir Jas. Paget) iii. 183
——— Subcutaneous section of. See *Exostosis*, *Osteotomy* (subcutaneous)
FERRIER (David), *notes* on A. B. Duffin's case of Cerebral tumour, ix. 187
Fevers, treatment of Rheumatic and other, by Salicin, Salicylic acid, &c. (H. Weber) .....x. 63
——— See *Enteric*, *Rheumatic*, *Relapsing*, *Scarlet*, *Typhoid*
——— traumatic, Thermometry of, reference to papers on.....v. 72 (*note*)
Fibrinous exudation, case of complete Obstruction of the Intestine by, with latency of acute symptoms (E. M. Skerritt) ...xii. 97
Fibroid Phthisis, case of (A. Clark).....i. 174
Fibroma, 'pachydermatocele' weighing 35 lbs. successfully removed (G. Fritsche) .....viii. 138
Fingers, Amputation of the little and ring fingers and part of the Index finger for Neuralgia of the hand (G. W. Callender) vii. 104
Fistula in Ano, case of double, one treated by the knife, the other by the elastic ligature (C. F. Maunder) .....viii. 172
——— recto-vesical, two cases of, treated by Colotomy (T. Bryant) v. 127
——— ——— in the female, successfully treated by Colotomy (C. Heath) .....vi. 128
Fistulæ, Penile, in a case of traumatic Stricture, cured by Otis's operation (W. F. Teevan).....x. 7

Follicular mal-nutrition; Cacotrophia folliculorum (T. Fox) xi. 163
Food, refusal of, during four years in a case of Melancholia, recovery (T. Buzzard) ..... viii. 31
Foot, description of the dissection of a Foot from which the Os calsis had been removed by subperiosteal Excision [see 'Transactions,' vol. viii. p. 77] (T. Holmes) ..... xi. 117
——— unexpected descent on the soles of the feet, effects of shock from, in a railway case (T. Buzzard) ..... ix. 145
——— spontaneous Gangrene of, in a boy, from disease of the Heart, amputation (F. J. Gant) ..... v. 176
Fore-arm. See *Hand* and fore-arm
——— See *Eruption* on
Foreign body, impacted in the external Auditory meatus (W. B. Dalby) ..... viii. 6
——— (end of a silver catheter) in the Bladder, extracted by external Urethrotomy, recovery (C. Heath) ..... xii. 143
——— impacted in right Bronchus (Rd. Barwell) ..... vi. 120
——— in a wound on the Cheek, exciting trismus, facial neuralgia and palsy and a recurrence of Epilepsy (Geo. Johnson) ... vi. 38
——— passage of, through the right Lung, pneumonia, abscess, recovery (W. H. Day) ..... vi. 126
——— See *Needle*
Forster (J. Cooper), case of femoral Aneurism, rupture of sac, old operation, recovery ..... i. 36
——— cases in which Torsion has been employed and remarks on the comparative merits of that process, and acupressure [with plate] ..... iii. 55
——— case of a naso-pharyngeal Polypus; brain-mischief, operation, death [with post-mortem appearances] ..... iv. 159
——— two cases of popliteal Aneurism, and the treatment adopted [compression] ..... v. 105
——— case of Cystitis, with extreme pain and incontinence of Urine, treated by the injection of opiates into the Bladder vi. 18
Fox (Tilbury), cases of Tinea circinata (Ringworm) communicated from the horse [with woodcuts of microscopic appearances] iv. 106
——— case of Lichen ruber of Hebra ..... v. 154
——— case of tubercular Leprosy, with remarks on the treatment of Leprosy ..... v. 200
——— note on Dr. Fritsche's two cases of Dermatolysis ... vi. 165
——— ——— See *Fritsche* (*G.*), Pachydermatocele
——— case of parasitic Sycosis ..... vii. 1

Fox (Tilbury), on Xanthelasmoidea, an undescribed eruption, viii. 53
——— two cases of severe Iodide of Potassium eruption [with plate] ....xi. 40
——— severe case of Erythema multiforme, œdematous and hæmorrhagic....xi. 85
——— cases of follicular mal-nutrition: Cacotrophia folliculorum [with plate] ....xi. 163
——— six cases of Lichen scrofulosorum of Hebra, with remarks [with plate] ....xii. 190
——— *Report* on R. J. Lee's case of Creeping Eruption.....viii. 45
——— See *Crocker*, case of Ichthyosis
Fox (Wilson), cases of treatment of Hyperpyrexia by cold baths, &c., *notice of* ....v. 137
Fracture of base of the Skull, slight immediate symptoms, subsequent coma and hemiplegia—death (C. De Morgan) ...iii. 17
——— of the Femur, spontaneous (A. E. Durham) ....iv. 63
——— of both Humeri, rupture of left brachial artery, abolished conductivity of left radial and median nerves, broken ribs, &c., recovery (J. W. Hulke) ....xii. 1
——— badly-united, of the bones of the Leg treated by the excision of a wedge with Linhart's chisel (C. Heath) ....x. 158
——— compound, bracketed Splint for (J. H. Packard).....vii. 96
——— ——— of the Femur, comminuted and secondarily compound, extending into the knee-joint; treatment by Carbolic acid (A. E. Durham) ....i. 134
——— ——— of the Pelvis causing traumatic stricture of Urethra, relieved by supra-pubic incision into the bladder (H. G. Howse) xii. 9
Freeman (Delamark), case of Poisoning by concentrated solution of Camphor (G. Johnson) ....vii. 31
Fritsche (Gustavus), two unusual cases of Elephantiasis Arabum (Dermatolysis), with *note* by Tilbury Fox [with woodcut] vi. 160–5
——— ——— *per Tilbury Fox*, case of Fibroma (pachydermatocele) weighing 35 lbs. successfully removed [with two woodcut illustrations of the case, before and after removal].....viii. 138
Fyffe (W. J.), report of a case of Diabetes cured by the skim-milk treatment (A. S. Donkin) ....vii. 161

Gall-bladder, case in which a Biliary Calculus was removed by operation from; cure (T. Bryant) ....xii. 201
Gall-stone. See *Calculus* (Biliary)
Galvanism. See *Electricity*

Galvanism, use of in treatment of temporary loss of Voice (Wm. Marcet) .....i. 88
——— treatment of cervico-brachial Neuralgia with the constant current (T. Buzzard) .....iv. 164
——— ditto, ditto (F. E. Anstie) .....iv. 171
Gangrene of the Lung, treated by incision (Wm. Cayley)...xii. 136
——— spontaneous, of both Feet in a boy, arising from disease of the heart; double amputation, &c. (F. J. Gant).....v. 176
GANT (Frederick J.), cases illustrating the process of Occlusion in Arteries after Acupressure, with its relation to treatment of surgical hæmorrhage, and as compared with ligature and torsion [with woodcuts].....iv. 95
——— spontaneous Gangrene of both Feet in a boy, arising from disease of the heart, double amputation, recovery from operation, death from cardiac and pulmonary condition [with woodcut] .....v. 176
Gargling, on Laryngeal (H. Guinier) .....vii. 19
Gas, three cases of, in the Peritoneal cavity (R. J. Godlee)...x. 115
——— in the Peritoneal cavity in Typhoid fever relieved by puncture (Geo. Brown) .....xii. 235
GASCOYEN (G. G.), *report* on Tho. Smith's case of vaccino-syphilis iv. 55
Gastro-enteritis, case of, from local irritants, simulating Cholera (C. Murchison) .....ii. 178
Gastro-enterotomy, successful case of, in a male aged 68 [artificial anus in small intestines] (C. F. Maunder).....ix. 102
——— ——— sequel to the case [in vol. ix.] (C. F. Maunder) x. 7
——— in a case of Intestinal obstruction (Wm. Cayley and Geo. Lawson) .....xii. 74
Gastrotomy, case of (Tho. Smith) .....v. 236
——— two cases of (Wm. MacCormac).....v. 242
——— notice of Mr. A. Durham's paper on [in Holmes's *Surgery*] (Tho. Smith) .....v. 240
——— for acute Intestinal obstruction (W. H. Cripps) .....xi. 224
——— for Invagination of a portion of the Ileum in the walls of the rectum, recovery (E. Bellamy) .....xii. 115
GEE (Samuel), on the action (remarkably emetic, without local irritation) of a new organic Base, Apomorphia .....ii. 166
Genu valgum, Ogston's operation for; death (A. E. Barker) xii. 27
——— and extrorsum, value of Osteotomy in (H. A. Reeves) xii. 32
——— See *Osteotomy*

Gland disease in ulcer of the Tongue (J. Hutchinson) .....ix. 17
Glaucoma, subconjunctival Sclerotomy as a remedy for (Spencer Watson) .....ix. 139
——— double, Iridectomy in left and Sclerotomy in right eye (Spencer Watson).....ix. 141
Glossitis, case of sub- (C. Holthouse) .....ii. 140
Glottis, Scald of the, with deposit of a Diphtheritic membrane in pharynx, larynx, and bronchi (R. W. Parker) .....viii. 144
——— spasm of, in a case of acute Laryngitis, treated by Tracheotomy (Alex. Bruce) ii.39
GLOVER (James Grey) case of uncomplicated Aphasia .....v. 39
——— ——— post-mortem examination, by J. Lockhart Clarke, J. Hughlings Jackson and W. B. Kesteven .....vi. 98
——— ——— supplementary microscopical report by W. B. Kesteven .....vi. 99
——— further progress and post-mortem examination of a case of Aphasia .....vi. 96
——— *Remarks* in the discussion on Pyæmia .....vii. cxiv
Glycosuria, persistent, &c., from shock in a railway case (T. Buzzard) ix. 145
GODLEE (Rickman J.), congenital Dislocation of one Knee forward x. 100
——— three cases of Gas in the peritoneal cavity .....x. 115
Goitre, Exophthalmic, four cases of, with palpitation of heart, of the carotids, &c. (M. Mackenzie) .....i. 9
——— ——— without cardiac symptoms (M. Mackenzie) .....i. 16
Gonorrhœa, fatal cases of acute Pyelitis and Nephritis consequent on (C. Murchison) .....ix. 25
GOODFELLOW (S. J.), case of Paraplegia, occurring suddenly and without previous warning .....iii. 186
——— *report* of the minute examination of the spinal cord in ditto (W. Cayley) .....iii. 190
GOODHART (J. F.), case of Hodgkin's disease [partially treated with Phosphorus].....x. 57
——— *report* on G. Brown's case of acute Arthritis of knee-joint in an infant .....ix. 182
——— and C. HIGGENS, case of Headache and double optic Neuritis, with almost complete Amaurosis; recovery, with partial restoration of sight.....ix. 127
GORDON (C. A.), *remarks* in the discussion on Pyæmia .....vii. cii
GOULD (A. Pearce), case of Amputation at the Hip-joint in which the Iliac arteries were compressed per rectum .....xii. 167
——— ——— summary of points to be noted in the case...xii. 171

Gould (A. Pearce), case of Spina Bifida successfully treated by injection of Iodine ..... xi. 75
Gout, blocking of the corpus cavernosum of the Penis in (P. G. Hewett) .... vi. xl
——— connection of Hæmorrhagic Retinitis with (J. Hutchinson) ..... xi. 132
Gowers (W. R.), case of Lymphatic Leucocythæmia treated with Phosphorus ..... x. 33
——— case of unilateral Gunshot injury to the Spinal Cord [with woodcut of contusion between the first and second cervical nerves] ..... xi. 24
——— an apparatus for the clinical estimation of Hæmoglobin [with woodcut] ..... xii. 64
Grafting. See *Skin Grafting.*
Gray (J. S.), *per G. W. Callender*: case of Intestinal Obstruction caused by the impaction of a Gall-stone ..... vi. 193
Green (Thomas Henry), Irritative Hypertrophy of the Heart, ii. 56
——— case of acute Fatty degeneration of the Heart ..... viii. 160
Greenfield (W. S.), case of Hodgkin's disease with increase in the number of white Blood-corpuscles, treated with Phosphorus, [with four charts of temperature] ..... x. 43
——— case of Hydatid of the Lung ..... x. 103
——— and Alfred Leggatt, fatal case of Yellow Fever occurring in London ..... xi. 187
Greenhow (Edw. Headlam), four cases of Intermittent or Paroxysmal Hæmaturia ..... i. 40
——— ——— *Report* on, and on the specimens of urine, by W. H. Dickinson, E. H. Greenhow, and F. W. Pavy ..... i. 54
——— case of Motor Asynergy [Locomotor ataxy] ..... i. 95
——— ——— *Report* on ditto, by H. C. Bastian and T. Buzzard i. 98
——— case of Motor Asynergy ..... i. 152
——— ——— *Report* on ditto by F. E. Anstie and T. Buzzard i. 157
——— case of Motor Asynergy affecting chiefly the upper extremities ..... ii. 127
——— ——— *Report* on ditto by T. Buzzard and W. Moxon ii. 135
——— case of Chorea in conjunction with Rheumatic Fever, treated with bromide and iodide of Potassium ..... ii. 69
——— case of Diphtherial Paralysis ..... iii. 22
——— case of Atrophy of the Brain; great depression of temperature several days before death ..... iii. 164

Greenhow (Edw. Headlam), case of Diphtherial Paralysis, treated with Faradism ..... iv. 148
——— case of Diphtheria followed by Paralysis ..... v. 187
——— case of Progressive Muscular Atrophy ..... v. 210
——— ——— microscopical appearances of muscles and spinal cord and nerves, by W. Cayley and W. B. Kesteven ... v. 214
——— case of acute Rheumatism, with cerebral symptoms and high temperature, treated with Cold Baths ..... vi. 7
——— case of Muscular Tumours and of Phlebitis, with plugging of the superficial veins of both legs, in a patient the subject of constitutional Syphilis ..... vi. 143
——— case of acute Muscular Atrophy [with plate of microscopical appearance of muscular fibres] ..... vi. 149
——— case of acute Rheumatism attended by cerebral symptoms without hyperpyrexia, recovery ..... vii. 172
——— case of Diabetes treated with skimmed milk ..... vi. 182
——— ——— daily report of quantity of urine passed, total quantity of sugar excreted during the twenty-four hours, &c. vi. 186
——— case of Vagabond's Discoloration simulating the bronzed skin of Addison's disease ..... ix. 44
——— Aneurism of the arch of the Aorta, with obstruction of left carotid and subclavian arteries; spontaneous cure nearly completed; death from empyema ..... ix. 109
——— case of Phthisis and patent Ductus arteriosus, attended by a thrill and two murmurs ..... ix. 152
——— *address as President*, Jan. 1879 ..... xii. xxxvii
Gross (S. D.), on Foreign Bodies in the Air-passages, *notice of* (R. Barwell) ..... vi. 124
Growths. See *Larynx*
——— See *Papillomatous* Growths
Guinier (H.), *per C. T. Williams*, on Laryngeal Gargling ... vii. 19
Gull (Sir William W.), accumulation of Hair, string, &c., in the human Stomach, death by perforation ..... iv. 180
——— Anorexia Nervosa (apepsia hysterica, anorexia hysterica) [with plates] ..... vii. 22
——— on a Cretinoid state supervening in adult life in women [two cases] ..... vii. 180
——— case of Melancholia ..... viii. 37
——— *address as President*, Jan. 1871 ..... iv. xxxiii
——— *second address as President*, Jan. 1872 ..... v. xxxiii
Gunshot injury, unilateral, to the Spinal Cord (W. R. Gowers) xi. 24

Gunshot See *Wounds* (Gunshot)
Gut. See *Catgut*

HABERSHON (S. O.), case of imperfection of Aortic valves, hypertrophy and dilatation of ventricles, stretching of mitral valves, &c., dropsy .....v. 57
——— case of Cardiac Disease after Rheumatism, regurgitation through the mitral valve, embolism, left hemiplegia, &c., recovery.....v. 62
Hæmatinuria, paroxysmal (F. W. Pavy).....iv. 74
Hæmaturia, intermittent or paroxysmal, four cases of (E. H. Greenhow) .....i. 40
——— ——— reference to authors of papers on .....i. 52
——— ——— *report* on Dr. Greenhow's case (W. H. Dickinson and F. W. Pavy) .....i. 54
Hæmoglobin, apparatus for the clinical estimation of (W. R. Gowers) .....xii. 64
Hæmoptysis, cases of, followed by Inflammatory changes in the Lungs (C. Bäumler) .....ii. 83
——— as a cause of Inflammatory processes and Phthisis, with remarks on treatment (H. Weber) .....ii. 143
——— case of in a Syphilitic patient (R. Farquharson).....viii. 71
Hæmorrhage into anterior lobe, in Thrombosis of cavernous sinus (T. S. Dowse) .....ix. 47
——— from the Palmar arch, treatment of (W. H. Cripps) vii. 127
——— severe, following the operation for cleft Palate, stopped by plugging the posterior palatine canal (H. Marsh) .....xi. 71
——— surgical, relative treatment of by acupressure, ligature and torsion .....iv. 95
——— ——— in Amputation, method of arresting, by Rd. Davy's lever, and cases in which used (A. P. Gould) .....xii. 172
Hæmorrhagic erythema, severe case of (T. Fox) .....xi. 85
Hæmorrhagic Retinitis, and its connection with Gout and Thrombosis of veins (J. Hutchinson).....xi. 132
Hair, string, &c., accumulation of, in the human Stomach; death by perforation (Sir W. Gull) .....iv. 180
Hamilton (Thomas), particulars of a case of Carbuncle of the face (Tho. Smith) .....iii. 66
Hammer toes, cases of, showing their relation to Spinal mischief (T. W. Nunn) .....xi. 153
Hand, case of Blood-cyst of (J. W. Haward).....vii. 93
——— neuralgia of the, treated by amputation of the little and

ring fingers and part of the index finger (G. W. Callender) vii. 104
Hand and forearm, acute suppuration of, treated by acupressure of the brachial artery (C. H. Moore).....ii. 61
——— lacerated wound of palm of the, tetanus, treatment by chloral and brandy—euthanasia, case by Mr. E. L. Dixon (J. W. Ogle) .....v. 76
Hare (Henry), *of Great Baddow*, case of distension of the Antrum of Highmore (J. W. Haward) .....v. 133
HARLEY (John), injury to the Liver resulting in abscess; rupture on the 14th day, diffuse peritonitis, formation of second abscess opening into the colon on the 25th day, interrupted discharge of pus by the large intestine till the 112th day, recovery iv. 13
——— *Report* on the strength of Mr. Barwell's solution of Strychnia iii. 142
Harrison (Robert), *of Ambleside*, testimony as to non-injurious character to the Heart, of athletic sports .....vi. 109
HAWARD (J. Warrington), sequel to Mr. G. Pollock's case of extensive Burn healed by Skin Grafting, vol. iv. p. 37 .....iv. 48
——— cases of Distension of the Antrum of Highmore .....v. 131
——— case of Caries of the Knee-joint treated by the local application of Sulphuric acid .....vi. 13
——— *post-mortem* of F. E. Anstie's case of Meningeal congestion vii. 38
——— case of Blood-cyst of the hand .....vii. 93
——— case of recurrent Tumour of the Breast [with woodcut of microscopic appearances] .....vii. 106
——— case of Caries of the Atlas and Axis .....viii. 7
——— case of Lymphadenoma .....ix. 40
——— recurrent Cancer of the Tongue treated by ligature of the lingual artery .....x. 129
HAWKINS (Charles), *Remarks* in the discussion on Pyæmia ...vii. liv
Haygarth's (John) 'Clinical History of the Nodosity of the Joints, 1805,' *notice of* (W. M. Ord) .....xii. 90
Headache and double optic Neuritis, with almost complete Amaurosis, recovery (J. F. Goodhart and C. Higgens) .....ix. 127
Health, out-of-healthedness or deteriorated nutrition (Sir W. Jenner) .....viii. xliv
Heart, disease of, causing spontaneous Gangrene of the feet, in a boy; amputation (F. J. Gant) .....v. 176
——— ——— after Rheumatism, regurgitation through the mitral valve, embolism, &c., recovery (S. O. Habershon) .....v. 62

Heart, disease of, in a case of Rheumatism with a wide daily range of temperature (Jas. Andrew) ..... v. 229
——— ——— valvular, of some standing in a case of Pericarditis (C. Bäumler) .....v. 15
——— statistics of, proportion of cardiac complications in cases of acute and subacute Rheumatism (T. B. Peacock) .....ii. 195
——— ——— *tables* of cases showing proportion of the two sexes, and of recent and old cardiac complication .....ii. 217–18
——— ——— references to papers by Dr. Fuller, Dr. Barclay, &c. ii. 222
——— dilated, from Valvular disease, right ventricle tapped by error, without harm and with relief of symptoms (G. H. Evans) viii. 169
——— cases of Disturbance of, in connection with Nephritis (Samuel Wilks).....iii. 103
——— case of acute Fatty degeneration of (T. H. Green) viii. 160
——— Hypertrophy of, of obscure origin, question as to renal disease, and remarkable effect of Digitalis (Handfield Jones) i. 148
——— irritative Hypertrophy of the (T. Henry Green).....ii. 56
——— Irritable, as following bodily exertion .....vi. 102
——— Palpitation of, in exophthalmic Goitre (M. Mackenzie) i. 9, 11, 12
Heart-sounds, obscuration of the first, in a case of acute Rheumatism in an epileptic (T. Buzzard) .....ii. 77
——— ——— transient triple sound at apex, in a case of imperfection of Aortic valves (S. O. Habershon) .....v. 57
——— ——— case of loud musical cardiac Murmurs probably produced by rupture of Aortic valve (B. Yeo).....vii. 155
Heart and Aorta, Overwork and strain of (T. C. Allbutt) ...vi. 101
Heat-stroke, phenomena of, shown in two cases of lesion of the cervical portion of the Spinal marrow (H. Weber) .....i. 163
Heath (Christopher), case of Cancer of the Œsophagus, with external openings and involving the Larynx .....i. 70
——— right subclavian Aneurism in a patient who had a cured left subclavian aneurism .....ii. 8
——— three cases of Imperforate Rectum, treated by operation iii. 113
——— wound of intestine during Ovariotomy, with recovery v. 35
——— case of complicated Stricture of the Urethra treated by Syme's operation for Impermeable Urethra .....iv. 121
——— further report of a patient in whom the left common carotid

Artery was tied for the relief of Aneurism of the arch of the aorta [see *Cockle*, vol. v. p. 183] .....vi. 127
HEATH (Christopher), reference to his case of ligature of the Carotid for aortic Aneurism [in vol. vi.] (T. Holmes) .....ix. 115
——— sequel to a case of aortic Aneurism [vol. v. p. 183] for which the left Carotid was tied four years and a half before death .....x. 96
——— case of recto-vesical Fistula in the female, successfully treated by Colotomy.....vi. 128
——— Gunshot Wound of the upper Arm, dividing the brachial artery and median nerve.....ix. 58
——— ——— *report* on ditto by G. V. Poore.....ix. 61
——— case of subperiosteal Resection of the shaft of the Tibia x. 132
——— case of badly united Fracture of the Bones of the Leg, treated by excision of a wedge with Linhart's chisel [with woodcut] .....x. 158
——— case of Popliteal Aneurism, for which the femoral artery was ligatured twice.....xi. 49
——— Foreign body (end of a silver catheter) in the Bladder; extracted by external Urethrotomy, recovery .....xii. 143
——— *Report* on C. Holthouse's case of chronic Rheumatic arthritis i. 68
Hemianæsthesia and left Hemiplegia, with diminution of motor power, loss of speech, &c. (J. B. Walker) .....xi. 32
Hemiplegia, case of, in a Syphilitic subject (J. Hughlings Jackson) iv. 183
——— left, &c., in a case of Embolism of right posterior cerebral Artery (W. H. Broadbent) .....ix. 61
——— ——— case of, with total loss of the right Eye (F. Simms) iv. 139
——— ——— in Cardiac disease after Rheumatism (S. O. Habershon) .....v. 62
——— ——— with Convulsion of Paralysed parts and impairment of sensation, coma, tumours of right occipital lobe and second parietal convolution (W. H. Broadbent).....v. 233
——— ——— with imperfect and peculiar Phonation, &c. (W. H. Broadbent) .....xi. 37
——— ——— with loss of speech, &c. (W. H. Broadbent)...xi. 39
——— ——— and Hemianæsthesia, with diminution of Motor power and sensation, loss of speech, &c., probably due to embolism of basilar artery (J. B. Walker) .....xi. 32

Hemiplegia, right, case occurring suddenly during Pregnancy, continuous until parturition, then rapid improvement and convalescence (A. W. Edis) .....vi. 195
——— right, imperfect, with slight Aphasia, double optic neuritis, &c. (T. Buzzard) .....xi. 205
Hemoptysis, fatal case of (W. Cayley) .....vii. 89
Hernia, temporarily irreducible, cases illustrating the treatment of (C. Holthouse) .....iv. 175
——— strangulated Femoral, wound of an irregular obturator artery in the operation for (A. E. Barker).....xi. 180
——— ——— digest of similar cases, with treatment and results xi. 183
——— case of Inguino-crural (C. Holthouse) .....iii. 136
Herpes, abortive (A. Sangster) .....xi. 212
Hewett (Prescott G.), case of periostitis of the humerus, relieved by free incision .....viii. 75
——— Remarks on cases of Spina Bifida, *notice of* .....xi. 78
——— *Address, as President*, Jan. 1873 .....vi. xxxv
Cases in private practice:—Severe spontaneous Epistaxis after middle life—Thrombosis or plugging of the veins—Blocking of the Corpus Cavernosum of the Penis in gouty constitutions—Cases of tertiary Syphilis occurring at a long interval after other constitutional symptoms.
——— *Address, as President*, Jan. 1874, on Pyæmia in private practice .....vii. xli
——— ——— *Discussion* on ditto .....vii. li–cxvii
——— *Remarks, as President*, in the discussion on Pyæmia .....vii. lxxi, cxv
Hicks (Braxton), *Remarks* in the discussion on Pyæmia.....vii. lxv, lxxiii
Higgens (Charles), case of Hydatid of orbit .....x. 9
——— double Optic Neuritis. See *Goodhart* and Higgens
Highmore. See *Antrum* of
Hill (Berkeley), case of Varicose Lymphatic vessels of the right lower extremity .....ii. 114
——— three cases of Tapping the chest in Pleurisy, with remarks iii. 72
——— case of hip-joint Amputation .....ix. 30
——— cases treated by Sayre's Jacket .....xi. 80
——— *Report* on Tho. Smith's case of Vaccino-Syphilis .....iv. 55
——— See *Report* of Committee on Temperature in Syphilis
Hillier (Thomas), cases of chronic Ascites in children .....i. 105
——— ——— sequel to ditto (T. Hillier) .....i. 110

HILLIER (Thomas), microscopical *examination* by T. Hillier and J. B. Sanderson .....i. 114
——— ——— *Report* on the chemical examination of the liquid, in Dr. Hillier's case of Ascites, by W. Marcet .....i. 115
——— ——— *Report* on the case, by J. B. Sanderson .....i. 117
HINTON (James), removal of a solid mass, probably a growth from the Tympanum, by incision of the membrana tympani ...ii. 75
Hip-joint, acute disease of, following the introduction of a tangle tent into the Cervix Uteri (A. Meadows) .....iv. 187
——— osseous Ankylosis at, subcutaneous section of the femur below the trochanters for (J. Croft) .....x. 94
——— Amputation at (B. Hill) ....ix. 30
——— ——— in which the Iliac arteries were compressed per Rectum (A. P. Gould).....xii. 167
——— ——— See *Amputation* at
——— case of Excision of, after Sayre's method (J. Croft) vi. 174
——— left. See *Arthritis* (chronic Rheumatic)
Hodgkin's disease, case of, with increase of White Blood-corpuscles, treated with Phosphorus (W. S. Greenfield) .....x. 43
——— case of, partially treated with Phosphorus (J. F. Goodhart) x. 57
——— See *Leucocythæmia*
HOLLIS (W. Ainslie), description of the Sarcotome, an instrument for painlessly cutting the soft tissues of the body.....vii. 138
HOLMES (Timothy), Excision of both Elbows .....i. 143
——— case of Lithotomy in which the stone was not discovered, having probably fallen to the ground with the first gush of urine .....ii. 67
——— case of removal of the second Metatarsal Bone, and subsequent Excision of all the Tarso-metatarsal articulations, v. 207
——— case of Naso-pharyngeal Polypus .....viii. 68
——— subperiosteal Excision of Os calcis .....viii. 77
——— description of the dissection of a Foot from which the Os calcis had been removed by subperiosteal Excision [case in vol. viii. 'Transactions,' p. 77] .....xi. 117
——— case of popliteal Aneurism in which the femoral artery was tied with a catgut Ligature .....ix. 19
——— case of distal Ligature of the left carotid artery for aortic Aneurism ....ix. 114
——— case of Excision of the Ankle, use of Linhart's chisel, ix. 122
——— distal Ligature of the left carotid artery in aortic Aneurism x. 97
——— case of Excision of the lower part of the Rectum.....xi. 113

HOLMES (Timothy), *Remarks* in the discussion on Pyæmia ...vii. lxi
HOLT (Barnard W.), case of large femoral Aneurism, treated by Pressure under chloroform, maintained for fifty-two consecutive hours .....vii. 56
HOLTHOUSE (Carsten), case of chronic Rheumatic Arthritis of left hip, in a young man nineteen years of age.....i. 63
——— ——— *Report* on, by Tho. Bryant, Chr. Heath, and C. F. Maunder .....i. 68
——— case of doubtful chronic Rheumatic Arthritis .....i. 92
——— large lacerated Wound on the outer side of the right Knee, laying open the joint, and followed by Tetanus on the ninth day .....ii. 94
——— case of subacute traumatic Tetanus successfully treated by the Calabar bean .....ii. 100
——— case of sub-Glossitis.....ii. 140
——— on a case of Inguinal Hydrocele.....iii. 109
——— on a case of Inguino-crural Hernia .....iii. 136
——— cases illustrating the treatment of Herniæ temporarily irreducible .....iv. 175
Group I. Herniæ suddenly irreducible, but unaccompanied by symptoms of strangulation 176
„ II. Accompanied by symptoms of strangulation 177
„ III. Accompanied by symptoms of strangulation, which spontaneously subside.....179
Hooping Cough, period of Incubation of (C. Murchison)...xi. 243
Horse, infection from a, rare Eruption on the forearms, the result of (J. Langton).....x. 121
——— cases of communication of Ringworm from the (Tilbury Fox) iv. 106
HOWSE (H. G.) case of supra-pubic Incision into the Bladder for the relief of traumatic Stricture caused by compound fracture of the pelvis .....xii. 9
HULKE (John W.) Extreme Hypertrophy of the epithelial and papillary elements of the mucosa of the Tongue, Ichthyosis glossæ, epithelioma supervening .....ii. 1
——— case of extensive Rodent Cancer of the face extirpated by excision and cauterisation, [with woodcut] .....v. 22
——— two cases of Cancer of the female Breast treated with Condurango, a remedy reputed of great efficacy from South America [progress unchecked].....v. 113
——— ——— Rodent Cancer of the face treated by Condurango v. 122
——— case of Œsophagismus or spasmodic stricture of the œsophagus, in a young boy .....vi. 52

BOSTON MEDICAL LIBRARY ASSOCIATION

HULKE (John W.), case of nearly fatal Poisoning by Chloral Hydrate viii. 42
——— case of arterio-venous Aneurism of the femoral vessels caused by a pistol-shot .....viii. 175
——— case of Aneurism of the left subclavian and axillary Arteries treated by enforced Rest, and a very limited diet xi. 123
——— case of Fracture of both Humeri, rupture of left brachial artery, abolished conductivity of left radial and median nerves, broken ribs, &c., recovery .....xii. 1
——— case of Retention of Urine caused by impermeable urethral Stricture, treated by tapping the bladder above the pubes, and later by external section of the stricture, &c. xii. 178
——— case of Sutural junction of the Ulnar Nerve fifteen weeks after its complete severance by a roofing slate; early restoration of function .....xii. 207
——— Intussusception of the Ileum into the Cæcum, &c. See *Coupland* and Hulke
——— *Remarks* in the discussion on Pyæmia .....vii. lxxiii

Keloid, true, of Alibert, case of (D. Duckworth).....iii. 118
Keratitis, cases of (Spencer Watson).....i. 19
——— parenchymatous, cases of, associated with acute Rheumatism (Spencer Watson).....iv. 1
KESTEVEN (W. B.), case of Epileptiform stupor in a child, successfully treated with bromide of Potassium.....iii. 168
——— case of primary Scirrhus of the breast treated by caustics and incision.....vi. 147
——— case of Cancer of the breast.....ix. 77

KESTEVEN (W. B.), post-mortem examination and supplementary *microscopical report* on J. G. Glover's case of Aphasia,...vi. 98–9
——— *Report* on E. Clapton's paper on the effects of Copper in the system .....iii. 13
——— *Report* on the microscopical appearance of the Spinal Cord in E. H. Greenhow's case of progressive Muscular Atrophy .....v. 214
——— *Report* on the state of the Spinal Cord in E. H. Greenhow's case of acute Muscular Atrophy.....vi. 155
——— *microscopical characters* of the Brain and Spinal Cord, in T. S. Dowse's case of chronic Lead-poisoning.....viii. 126
Kidney, Abscess in or about the, opening externally (R. Southey) i. 58
——— disease of, question as to, in a case of cardiac Hypertrophy of obscure origin (Handfield Jones).....i. 148
——— large and pale, in second stage of Bright's disease in a Syphilitic subject, death (R. Southey).....vii. 9
——— left, small and Atrophied, in a case of chronic Nephritis (R. Southey) .....x. 152
——— right, chronic parenchymatous Nephritis of, atrophy of left, &c. (R. Southey) .....x. 152
——— See *Nephritis*
Knee-joint, acute Arthritis of, and necrosis of tibia in an infant, amputation, recovery (G. Brown) .....ix. 175
——— case of Caries of, treated by the local application of sulphuric acid (J. W. Haward) ....vi. 13
——— congenital Dislocation of, forward (R. J. Godlee) ...x. 100
——— comminuted Fracture of the Femur, extending into (A. E. Durham) .....i. 134
——— Wound of, followed by acute Inflammation, subsiding after ligature of the femoral artery (C. F. Maunder).....ii. 37
——— lacerated Wound of right, laying open the joint and followed by Tetanus on the ninth day (C. Holthouse) .....ii. 94
——— extensive Wound of, treated by Lister's method, recovery with bony Ankylosis (T. P. Pick) .....ix. 12
——— See *Amputation*
——— Excision of, eight years after the operation (Thos. Smith) i. 62
——— ——— or Resection of, remarkable condition of limb after (R. Barwell) .....ix. 173
——— bracketed splint for (J. H. Packard) .....vii. 96

Labour, continuous hard, of labourers and artisans, more injurious

to the Heart than the intermittent labour of the better classes in Alpine climbing and athletic sports.....vi. 108–10
LANGTON (John), medullary Cancer of left half of the soft Palate iii. 61
——— rare Eruption on the forearms [resembling that of vaccination], the result of infection from a horse [with lithographic illustration] .....x. 121
Laparotomy for acute Intestinal Obstruction, removal of a large impacted Gall-stone from the Ileum; death from peritonitis (T. Bryant) .....xii. 106
——— in a case of Intussusception of the Ileum into the Cæcum, great relief, but death on seventh day (S. Coupland and J. W. Hulke) .....xii. 216
Laryngeal Gargling (H. Guinier) .....vii. 19
Laryngitis, acute, with spasm of the Glottis, treated by Tracheotomy (Alex. Bruce).....ii. 39
——— chronic, Tracheotomy as a means of cure in (T. Bryant) i. 127
Laryngotomy, complete, in a case of multiple papillomatous Growths in larynx, &c. (J. B. Yeo and J. Lister) ...xi. 104
Larynx, involved in Cancer of the œsophagus (C. Heath).....i. 70
——— See *Diphtheritic* membrane in
——— growths from the, Thyrotomy for the removal of (W. P. Thornton) .....vi. 90
——— acute Œdema of (W. P. Thornton) .....ix. 68
——— multiple Papillomatous growths in, extirpated by complete Laryngotomy; preservation of voice (J. B. Yeo and J. Lister) xi 104
——— Stenosis of, paper on by Lennox Browne (F. Semon) xii. 185
——— Syphilitic disease of, tracheotomy, rapid recovery, two cases (T. Bryant) .....i. 130–1
——— Ulcerative disease of, tracheotomy, rapid convalescence (T. Bryant).....i. 133
LAWSON (George) on the transplantation of portions of Skin for the closure of large granulating surfaces [Skin Grafting] iv. 49, 51
——— melanotic tumour of the Eye treated by Excision of the globe, and application of chloride of Zinc paste to the remaining structures in the orbit .....v. 1
——— case of Rodent Cancer involving right upper eyelid, orbit and nose, treated successfully by Excision and caustics...v. 26
——— case of congenital Hypertrophy of the Tongue .....v. 158

LAWSON (George), case of Epitheliomatous Tumour of the upper Maxilla treated by excision of the disease and the application of Escharotics ..... vi. 20
——— removal of large melanotic Sarcoma of the eye and orbit by Excision and use of chloride of Zinc paste, recovery [with woodcut of tumour and eye before and after removal] ix. 31
——— removal of Tumour from floor of Orbit, without injury to the eye ..... ix. 33
——— large Hydatid tumour of Orbit, with protrusion and eversion of the eye, choked optic disc, removal and recovery [with lithograph and woodcut illustration] ..... ix. 134
——— ——— *report* of T. S. Cobbold's examination of the tumour ix. 137
——— on a case of Tracheotomy in the last stage of Diphtheria, recovery ..... xii. 117
——— Gastro-enterotomy, see *Cayley* (Wm.)
LAWSON (Henry). Letter to Dr. Clapton relative to the presence of Copper in the hair ..... iii. 14
Lead Poisoning, Paralysis of the Radial Nerve from an unusual mode of (J. Althaus) ..... vii. 121
——— chronic, case of, with acute diffuse Paralysis, suppression of urine, death (T. S. Dowse) ..... viii. 124
LEARED (Arthur), Apoplexy, with apparent death from Epileptiform fits, restoration by artificial respiration ..... iii. 131
LEE (Henry), operation for Varicocele ..... i. 73
——— case illustrating the condition of the Femoral Artery after Acupressure for three days ..... i. 118
——— case of removal of the Tongue for Cancer ..... iv. 114
——— *notes* of his operation of dividing the Sterno-mastoid Muscle in a case of Wry-neck ..... vi. 119
——— case of traumatic Stricture of the Trachea relieved by operation ..... vii. 112
——— ditto, ditto ..... viii. 1
——— case of Tumour of back, removed by elastic Ligature viii. 48
——— *Remarks* in the discussion on Pyæmia ..... vii. lxv
LEE (R. J.), case of Creeping Eruption ..... viii. 44
——— ——— *report* on ditto by W. H. Dickinson, Tilbury Fox, and Dyce Duckworth [with woodcut of microscopic appearances] ..... viii. 45
LEES (D. B.), two cases of Paralysis of the Serratus magnus as a part of infantile paralysis ..... xii. 233

Leg, Elephantiasis of the (A. T. Norton).....i. 16
——— right, and thigh [Lymphatic] enlargement of, with occasional discharges of Chylous fluid (W. H. Day) .....ii. 104
——— ——— ditto, fatal termination of the case [in the 'Trans.,' vol. ii., p. 104] (W. H. Day).....xi. 214
——— badly-united Fracture of the bones of, treated by Excision of a wedge with Linhart's chisel (C. Heath)..... .....x. 158
——— case of rare Vaso-motor disturbance in (W. A. Sturge) xii. 156
——— Gun-shot Wound of, Amputation, traumatic delirium, recovery (J. Crouch) ....ii. 43
Legs. See *Anæsthesia* of, *Muscles* of
LEGGATT (Alfred), case of intestinal Concretion passed per anum ix. 163
——— and W. S. GREENFIELD, fatal case of Yellow fever occurring in London .....xi. 187
Lepra anæsthetica, references to the works of Danielssen and Bœck, V. Carter, and the College of Physicians' report on, iii. 158–61
——— ——— case of (F. E. Anstie) .....v. 193
——— ——— case of (Reg. Southey).....viii. 91
——— ——— case of supposed (T. Buzzard) .....iii. 152
Leprosy (Tubercular), case of, with remarks on the treatment of Leprosy (T. Fox) .....v. 200
Leuchæmia, cases of (W. Moxon) .....ix. 83
Leucocythæmia, lymphatic, case of, treated with Phosphorus (W. R. Gowers) .....x. 33
——— case of Hodgkin's disease, with increase of white blood-corpuscles, treated with Phosphorus (W. S. Greenfield)...x. 43
Lichen ruber of Hebra, case of (T. Fox) .....v. 154
Lichen scrofulosorum of Hebra, six cases of (T. Fox) .....xii. 190
——— ——— case of (H. R. Crocker) .....xii. 195
Ligature, note of cases of Amputation in which used [statistics of results at St. Bartholomew's Hospital, 1853–70] (G. W. Callender) .....iii. 111
Ligature of the left Carotid artery for Aneurism of ascending portion and arch of aorta (J. Cockle).....v. 183
——— ——— distal, for aortic Aneurism (T. Holmes) .....ix. 114
——— of the Femoral artery (C. F. Maunder).....ii. 5
——— ——— causing subsidence of inflammation after wound of knee-joint (C. F. Maunder).....ii. 37
——— of arteries. See also *Arteries*
——— comparison of process of Occlusion in Arteries after Acupressure with (F. J. Gant) .....iv. 95

Ligature and cautery in treatment of orbitar Nævus (W. Spencer Watson).....vi. 166
——— catgut, of Femoral artery, in a case of popliteal Aneurism (T. Holmes) .....ix. 19
——— carbolised catgut, cases to illustrate its behaviour upon human arteries (T. Bryant).....xi. 1
——— ——— of superficial Femoral artery (T. Smith).....xi. 51
——— elastic, Tumour of back removed by (H. Lee).....viii. 48
——— ——— in treatment of Fistula in ano, compared with the knife (C. F. Maunder) .....viii. 172
——— Tendon, note on (G. W. Callender).....xi. 103
Limbs, contraction of lower, in a case of Hysteria in a boy (H. Thompson).....xi. 5
——— uncontrollable movements of right, in a case of Embolism of right posterior cerebral artery (W. H. Broadbent) ix. 61
Lingual. See *Tongue*
Linhart's chisel, use of in a case of Excision of the Ankle (T. Holmes) .....ix. 122
——— use in badly united Fracture of the bones of the leg (C. Heath).....x. 158
Lister (Joseph), complete Laryngotomy, and removal of vocal cords for complete extirpation of multiple papillomatous growths in the Larynx; preservation of voice .....xi. 107
——— See *Yeo* and Lister
——— Lister's method, use of in a Wound of the Knee-joint (T. P. Pick) .....ix. 12
——— Lister's abdominal tourniquet, pressure by, see *Aneurism* of the external Iliac artery
Litholapaxy, or Lithotrity with immediate evacuation (H. J. Bigelow) .....xii. 17
Lithotomy for large Calculi [free incision and division of the prostate] (W. F. Teevan) .....iv. 84
——— four cases of Sterility after (W. F. Teevan) .....vii. 179
——— case in which the Stone was not discovered (T. Holmes) ii. 67
——— case of Supra-pubic (Jonathan Hutchinson) .....xii. 3
——— See *Calculus* (urinary)
Lithotrity, with immediate evacuation (H. J. Bigelow).....xii. 17
——— See *Litholapaxy*
Little (W. J.), wound of the knee-joint, see *Maunder* (C. F.)
Liveing (Robert), cases of Ascites treated with Copaiba .....iii. 30

Liver, Abscess of, co-existing with Empyema, case in which paracentesis thoracis was performed (J. P. Irvine) .....x. 174
——— acute Cancer of, with Pyrexia (C. Murchison).....ix. 27
——— enlargement and disease of, in cases of Ascites (J. S. Bristowe) .....ii. 19–35
——— Hydatid tumour of, see *Hydatid*
——— injury of, resulting in Abscess, rupture, diffuse peritonitis, second abscess into colon, &c. (J. Harley) .....iv. 13
London, fatal case of Yellow fever occurring in (A. Leggatt and W. S. Greenfield).....xi. 187
Lowne (B. T.), case of Neuro-Retinitis, followed by partial Atrophy of the Optic disc, with observations on the perception of colour x. 117
Lucas (Richard Clement), case in which the lower half of the Ulna was excised for a Myeloid Tumour, recovery with a useful limb.....x. 135
——— case of Bullet-wound of the Skull [with chart of temperature in traumatic meningitis].....xii. 5
Lucas (Robert H.), autopsy of Dr. Henry Thompson's case of Thrombosis [with woodcut of aorta and vena cava, showing position of needle in the Thrombus].....viii. 23
Lungs. See *Cavity* in Phthisis
Lung, contracted, three cases of Phthisis with (R. Douglas Powell) ii. 181
——— disease, case of Diphtheritic Paralysis simulating (J. Pearson Irvine) .....ix. 188
——— left, encephaloid Infiltration of, in a case of Cancer of Pylorus (R. Southey) .....viii. 15
——— right, passage of a Foreign body through, pneumonia, abscess, recovery (W. H. Day) .....vi. 126
——— Gangrene of the, treated by Incision (Wm. Cayley) xii. 136
——— case of Hydatid of (W. S. Greenfield).....x. 103
——— Inflammatory changes in, following Hæmoptysis (C. Bäumler) .....ii. 83
Lung-tissue, microscopical examination of, in T. S. Dowse's case of Syphilis contracted from hereditary form, by S. Coupland x. 173
Lupus, two cases of (W. Spencer Watson) .....xi. 201
——— five cases, treated by B. Squire's modification of Volckmann's process (B. Squire) .....ix. 166
——— of the Face treated by linear Scarification aided by erasion (B. Squire) .....xi. 61

Lupus of superciliary ridge, eyelids, and root of nose treated with Lunar Caustic (W. Spencer Watson).....xi. 201
——— of nose and cheek treated with solid Nitrate of Silver (W. Spencer Watson) .....xi. 203
——— Erythematosus, case of (B. Squire) .....ix. 165
——— ——— two cases treated with Woodhall water (T. W. Nunn) .....v. 4
Lymphadenoma, case of (J. W. Haward) .....ix. 40
Lymphatic Enlargement of the right leg and thigh; fatal termination of the case [in the 'Trans.,' vol. ii. p. 104] (W. H. Day) xi. 214
——— ——— See *Leucocythæmia*
Lymphatic vessels of the right lower extremity, varicose (B. Hill) ii. 114

MacCormac (William), two cases of Gastrotomy .....v. 242
——— Suppuration of the Elbow-joint, puncture, recovery, vi. 113
——— on a case of Taliacotian Rhinoplasty [with woodcut illustrations] .....x. 181
——— See *Esmarch*
McHardy (Macdonald), case demonstrating the value of Electro-magnets for the removal of iron or steel chips from within the Eye .....xi. 128
Mackenzie (Morell), cases of Exophthalmic Goitre: 1, with palpitation of the heart; 2, with mitral and aortic bruits; 3, with palpitation of the carotids, &c.; 4, without increased pulsation, i. 9
——— case of displacement of the Trachea from external pressure ii. 169
——— two cases of Obstruction of the Œsophagus treated by mechanical means .....iii. 180
——— on the treatment of cystic and fibrocystic Bronchocele, with cases .....vii. 115
Mackenzie (Stephen), cases illustrating the communicability of, and some other points connected with, Molluscum Contagiosum xii. 228
McKeown (W. A.), case in which Œsophagotomy was performed for the impaction in the Œsophagus for five weeks of a set of artificial teeth [with woodcut of front and back views of artificial teeth, natural size] .....xi. 233
Magnet. See *Electro-magnet*
Malignant Tumour. See *Cancer, Tumours*
Malleoli, second row of Tarsal bones drawn under the, in a case of Excision of the os calcis and astragalus (F. Jordan) .....x. 166

Mal-nutrition, Follicular (T. Fox) .....xi. 163
Manganese, nickel, and zinc, use of in Anæmia, Chlorosis, and associated disorders (W. H. Broadbent) .....ii. 122
Maniacal paroxysms, in a case of Exophthalmic Goitre (M. Mackenzie) .....i. 12
MARCET (William), case of temporary Loss of Voice successfully treated by Galvanism .....i. 88
——— *Report* on ditto, by George Buchanan, W. S. Church, and Symes Thompson .....i. 91
——— *chemical examination* of the liquid in Dr. Hillier's case of chronic ascites .....i. 115
MARRIOTT (Osborne D.), case of acute suppurative Synovitis, evacuation of the pus, with antiseptic precautions: recovery xi. 54
MARSH (F. Howard), case of operation for Cleft Palate in a child aged sixteen months .....iii. 15
——— case of severe Hæmorrhage, following the operation for Cleft Palate, stopped by plugging the posterior palatine canal [with woodcuts showing distribution of descending palatine branch of the internal maxillary artery] .....xi. 71
——— case of Intestinal obstruction in which the Abdominal cavity was explored, a stricture found, and the gut successfully opened .....xii. 102
——— and THOMAS BARLOW, case of Ovariotomy in a child aged twelve years .....xi. 175
MARSHALL (L. W.), *of Nottingham*, case of traumatic stricture of urethra. See *Howse*.
MAUNDER (Charles F.), case of partial Resection of the Shoulder-joint .....i. 5
——— on Ligature of the Femoral artery .....ii. 5
——— *for Mr. Little*, wound of the Knee-joint followed by acute Inflammation subsiding after ligature of the femoral artery ii. 37
——— case of double Fistula in ano; one treated by the knife, the other by the elastic ligature.....viii. 172
——— successful case of Gastro-enterotomy (artificial anus in small intestine) in a male aged 68 .....ix. 102
——— ——— sequel to ditto .....x. 7
——— subcutaneous Osteotomy, four cases .....ix. 156
——— on a case of Excision of Elbow-joint .....x. 203
——— two cases of true subcutaneous operation for Exostosis xi. 59

MAUNDER (Charles F.), *Report* on C. Holthouse's case of chronic Rheumatic Arthritis ..... i. 68
——— *reference* to his case of Tracheotomy (P. Thornton) ...x. 99
——— See *Daly*, *Wolston*
Maxilla. See *Jaw*
Maxillary Sinus, on the expansion of (C. H. Moore) ..... iii. 89
MEADOWS (Alfred), case of acute disease of the Hip-joint following the introduction of a tangle-tent into the Cervix uteri ..iv. 187
Measles, abstracts of cases of, by H. Weber ..... iii. 233–4
——— period of Incubation of (C. Murchison) ..... xi. 241
Meatus, external auditory, case of a Foreign body impacted in (W. B. Dalby) ..... viii. 6
Mechanical means, use of in treatment of Obstruction of the Œsophagus (M. Mackenzie) ..... iii. 180
Meding (Dr.), first case of recovery from Rheumatic fever hyperpyrexia, by cold water treatment, *notice of* ..... v. 143
Medulla oblongata, small tumour in right half of, with larger in left hemisphere of Cerebellum (T. Buzzard) ....vii. 165
——— syphilitic tumours in, in a case of Paralysis of left face (W. H. Broadbent) ..... v. 173
Melancholia, case of (Sir W. Gull) ..... viii. 37
——— case of recovery from, after refusal of food and obstinate silence during four years (T. Buzzard) ..... viii. 31
Melanotic Sarcoma. See *Sarcoma* (*Melanotic*)
Melanotic tumour of the Eye, treated by excision of the globe and application of chloride of zinc paste (Geo. Lawson) ..... v. 1
Ménière's disease, case of (A. B. Duffin) ..... ix. 94
Meningeal congestion, case of death from, without inflammation (F. E. Anstie) ..... vii. 34
Meningitis, traumatic, chart of Temperature in (R. Clement Lucas) xii. 8
——— severe, treated in the stage of coma by cold douche for 2½ hours, recovery (C. B. Keetley) ..... xii. 145
Menorrhagia in a case of marked Anæmia (W. H. Broadbent) ii. 124
Mental faculties, impairment of, in a case of left Hemiplegia, &c. (J. B. Walker) ..... xi. 32
Metallic bands, in treatment of hysterical Anæsthesia of both Legs (W. H. Broadbent) ..... xi. 13
Metatarsal bone, second, case of removal of, and subsequent Excision of all the tarso-metatarsal articulations (T. Holmes) v. 207
——— See *Tarsal* bones

Milk, skim, case of Diabetes treated with (E. H. Greenhow), vi. 182
——— case of Diabetes successfully treated with (A. S. Donkin) vii. 157
——— ditto, two cases (A. S. Donkin) .....ix. 34
Milky-looking lymph. See *Chylous fluid*
Mineral waters. See *Woodhall water*
Mitchell (Weir), account of five cases of Vaso-motor disturbance in the leg, *notice of* (W. A. Sturge) .....xii. 160
Mitral valve, atheromatous, in a case of Aneurism of popliteal artery (A. T. Norton) .....x. 109
——— Regurgitation through, in Cardiac disease after rheumatism (S. O. Habershon) .....v. 62
——— stretching of, in a case of imperfection of the aortic valves, &c. (S. O. Habershon).....v. 57
——— vegetations on, in a case of Rheumatism, with a wide daily range of temperature (Jas. Andrew) .....v. 229
Molluscum contagiosum, four cases of, in one family (D. Duckworth) .....v. 205
——— cases illustrating the communicability of, and other parts connected with (Stephen Mackenzie) .....xii. 228
Moore (Charles H.), acute Suppuration of the hand and forearm treated by Acupressure of the brachial artery .....ii. 61
——— on Expansion of the Antrum of Highmore.....iii. 89
Morphia, subcutaneous injection of, in circumstances influencing the safety of (Handfield Jones) .....iv. 72
——— abuse of, fatal Pleuropneumonia in a man addicted to (T. Whipham) .....viii. 108
Morphœa, case of (Dyce Duckworth) .....ix. 78
Morris (Henry), case of Myeloid or endosteal Sarcoma of the left radius, lower ends of the radius and ulna excised, leaving a useful hand .....x. 138
Morris (Malcolm), case of Tinea Circinata, complicated with tinea versicolor .....xi. 186
Morton's treatment of Spina bifida by Iodine injection, *notice of* xi. 77
Moxon (Walter), case of Paralysis of some cranial nerves referable to tumours of the cavernous sinus cured by iodide of Potassium v. 45
——— cases of Leuchæmia .....ix. 83
——— *Remarks* in the discussion on Pyæmia .....vii. cxii
——— *Report* on E. H. Greenhow's case of motor Asynergy ii. 135

MURCHISON (Charles), two cases of acute Rheumatism with extremely high temperature before death .....i. 32
——— case of Cholera treated with Saline injection into the veins of a lower temperature than that of the blood.....ii. 174
——— case of Gastro-enteritis from local irritants simulating Cholera .....ii. 178
——— two fatal cases of acute Pyelitis and Nephritis, consequent on gonorrhœa .....ix. 25
——— acute Cancer of Liver, with pyrexia, in a man aged 24 ix. 27
——— report of a case of Enteric Fever treated with Salicylate of soda [with temperature chart]... .....x. 187
——— on the period of Incubation of Scarlet Fever, and of some other diseases [small-pox, measles, hooping cough, typhus, enteric fever] .....xi. 238
——— See *Report* of Committee on Quinine
Murmur. See *Heart Sounds*
Murmurs, two, and thrill in a case of Phthisis and patent ductus arteriosus (E. H. Greenhow) .....ix. 152
MURRAY (John), Paracentesis Thoracis in a case of uncomplicated Pleuritic effusion .....v. 39
Muscles, convergence, of the eyes, case of Vertigo simulating brain disease, produced by strain of (R. B. Carter).....viii. 12
——— of the Neck, clonic spasmodic contraction of, from some affection of the contents of the spinal canal (John W. Ogle) vi. 114
——— unusually rapid Wasting and repair of, in a case of syphilitic Paralysis (F. E. Anstie).....vi. 15
——— of lower extremities, Wasting and contraction of, following injury to lower part of spinal cord (J. Aikman).....xi. 16
——— See *Atrophy* (muscular), *Tumours* (muscular)
——— posterior Cricoarytænoid, bilateral Paralysis of (F. Semon) xi. 141
——— ——— question of Tracheotomy in bilateral Paralysis of (F. Semon) .....xii. 184
——— Sterno-mastoid, congenital tumour or induration of, its nature (Thos. Smith).....iv. 70
——— See *Pectoralis* major and minor, *Quadriceps* extensor cruris, *Serratus* magnus
Muscular movements, power of executing combined, in locomotor Ataxy (H. C. Bastian and T. Buzzard's Report) .....i. 103
Myelitis, supervening gradually upon Concussion of the Spine (Handfield Jones) .....i. 144

Myeloid or endosteal Sarcoma of the left radius, lower ends of the Radius and Ulna Excised, leaving a useful hand (H. Morris) x. 138
Myeloid tumour, Excision of lower half of Ulna for, recovery (R. C. Lucas) ..... x. 135
MYERS (A. B. R.), case illustrative of the identity of the Syphilitic Virus in the hard and soft Chancre ..... ii. 160

Nævus of the orbitar Cellular tissue, treated by ligature and the actual cautery (W. Spencer Watson) ..... vi. 166
Nails, cases of Parasitic disease of, associated with different parasitic affections of the scalp and body (Hilton Fagge) ..... i. 77
Naso-pharyngeal cavity, case of Polypus in (T. Holmes) ... viii. 68
——— ——— ditto, with brain mischief, operation, death (J. C. Forster) ..... iv. 159
Neck, Muscles of the, clonic spasmodic contraction of, from some affection of the contents of the spinal canal (John W. Ogle) vi. 114
——— ——— spasmodic contraction of, *references* to papers on dividing the spinal accessory nerve for ..... vi. 116–17 (*note*)
Necrosis of the Femur, without external inflammation (Sir Jas. Paget) ..... iii. 183
——— of the Occipital bone, in connection with wasting of part of the tongue (Sir Jas. Paget) ..... iii. 238
——— spontaneous, and separation of a portion of the Skull and Scalp (T. Smith) ..... iii. 163
——— of Tibia and acute arthritis of Knee-joint in an infant, amputation, recovery (G. Brown) ..... ix. 175
——— acute, case of, in which the whole shaft of the Ulna was removed (R. Barwell) ..... viii. 118
Needle found embedded in the Thrombus, in a case of thrombosis (H. Thompson) ..... viii. 19
Nephritis, cases of Cardiac disturbance in connection with (Samuel Wilks) ..... iii. 103
——— case of Scarlet Fever intercurrent during (A. Andrews) iii. 84
——— chronic parenchymatous, of right Kidney, left kidney atrophied, &c. (R. Southey) ..... x. 152
——— and Pyelitis, acute, two fatal cases, consequent on Gonorrhœa (C. Murchison) ..... ix. 25
Nerve, third, paralysis of branch of to levator palpebræ, from Syphilis of the cranium (W. H. Broadbent) ..... iv. 102

Nerve, fourth, paralysis of, from Syphilis of the cranium (W. H. Broadbent) .....iv. 102
——— fifth, paralysis of ophthalmic and superior maxillary divisions of, from Syphilis of the cranium (W. H. Broadbent) iv. 102
——— Ciliary, of the eyeball, presumed injury to (R. B. Carter) iv. 59
——— Cranial, paralysis of, referable to tumours of the cavernous sinus, cured by iodide of Potassium (W. Moxon) .....v. 45
——— Median, stretching of, in treatment of Neuralgia (G. W. Callender).....vii. 100
——— ——— division of, in Gunshot Wound of the upper arm (C. Heath) .....ix. 58
——— Radial, Paralysis of from an unusual mode of Lead-poisoning (J. Althaus) .....vii. 121
——— Radial and median, abolished Conductivity of, in a case of Fracture of both humeri, &c., recovery (J. W. Hulke) ...xii. 1
——— Ulnar, case of Sutural junction of, fifteen weeks after complete severance by a roofing slate, early restoration of function (J. W. Hulke).....xii. 207
Nerve centres, excessive Temperature at, in two cases of sudden death, in rheumatic fever (H. Weber) .....i. 21
——— vaso-motor, case of rare disturbance of in leg (W. A. Sturge) .....xii. 156
——— vaso-motor centres of the Brain, partial Epilepsy apparently due to a lesion of one of (W. A. Sturge) .....xii. 162
Nerve function, case of disordered, in an infant (T. Smith) viii. 142
Nervous exhaustion, use of the Hypophosphites in (W. H. Day) iii. 1
Nervous system, on Temperature in certain affections of, especially in Tetanus (J. W. Ogle).....v. 71
Neumann (Dr.), views on Leuchæmia as due to changes in the marrow of bones, *referred to*.....ix. 90
Neuralgia treated by stretching the Median Nerve (G. W. Callender).....vii. 100
——— Cervico-brachial, treated with the Constant Current (T. Buzzard) .....iv. 164
——— ——— apparently cured by the Constant Current (F. E. Anstie) .....iv. 171
——— Facial, reinduced by Syphilis; attended with ocular paralysis, &c. (F. E. Anstie) .....iv. 192

Neuralgia, facial, in a case of Trismus, excited by a Foreign body in a wound on the cheek (Geo. Johnson).....vi. 38
——— double Occipital, not relieved by Electricity (F. E. Anstie) iv. 171
——— of the Hand, treated by Amputation of the little and ring fingers, and part of the index finger (G. W. Callender) vii. 104
——— Syphilitic, sequel of a case of (F. E. Anstie) .....v. 43
Neuritis, optic, three cases of (R. B. Carter) ....iv. 32
——— ——— case of, with complete loss of Vision, recovery under treatment (J. C. Thorowgood).....viii. 80
——— ——— double, with almost complete Amaurosis, recovery (J. F. Goodhart and C. Higgens) .....ix. 127
——— ——— double, in a case of Embolism of right posterior cerebral artery (W. H. Broadbent) .....ix. 61
——— ——— double, in a case of imperfect right Hemiplegia (T. Buzzard).....xi. 205
Neuroma, excision of a, curing severe Epilepsy (R. Barwell) viii. 27, 29
Neuro-retinitis. See *Retinitis*
Nickel, use of in Anæmia and Chlorosis (W. H. Broadbent) ii. 122, 125
NIEDEN (Ad.), *per Hermann Weber*, case of Lesion of the upper dorsal portion of the Spinal marrow, with excessive lowering of Temperature and Pulse .....vi. 75
Nitrite of Amyl. See *Amyl* (nitrite of)
Nodes, Syphilitic, in an infant (M. Payne) .....iv. 61
NORTON (Arthur T.), Elephantiasis of the leg .....i. 16
——— two cases exemplifying acute and chronic Catarrh of the Tonsil.....vii. 176
——— ——— *Plate* of Papillæ found upon the lining membrane of the crypts and channels of tonsils .....vii. 178
——— case of Cleft Palate, treatment by operation and the obturator.....ix. 124

Squire (Balmanno), cases of Skin disease [lupus erythematosus, lupus vulgaris, and psoriasis treated by indiarubber] ... ix. 165
——— case of Lupus of the face treated by linear scarification aided by erasion..... xi. 61
——— two cases of Psoriasis; the one treated by prolonged daily immersions, the other by an ointment of Chrysophanic acid xi. 90
Steel. See *Iron*
Sterility after Lithotomy, [four] cases of (W. F. Teevan) ... vii. 179
Sterno-mastoid muscle, congenital Tumour or induration of, its nature (Thos. Smith) ..... iv. 70
Stewart (A. P.), *remarks* in the discussion on Pyæmia ... vii. xcvii
Stomach, accumulation of hair, string, &c. in the human; death by perforation (Sir W. Gull)..... iv. 180
——— chronic diseases of, therapeutical use of the stomach-pump in (P. Schliep) ..... vi. 41

Stomach-pump, therapeutical use of the, in chronic diseases of the stomach (P. Schliep) ..... vi. 41
Stone. See *Calculus*
Strabismus, paralytic, cured by Tenotomy and localised Faradisation with the primary current (R. B. Carter) ..... v. 69
Stricture, impassable, treatment of Retention of Urine from, by filiform bougies (W. F. Teevan) ..... iv. 124
——— traumatic, from compound fracture of the pelvis, supra-pubic incision into the bladder for relief of (H. G. Howse) xii. 9
——— See *Trachea, Œsophagus*
——— See *Colon, Rectum, Urethra*
Strychnine, case of local Paralysis, successfully treated by hypodermic injection of large doses of, in concentrated solution (R. Barwell) ..... iii. 139
——— ——— *report* upon the strength of the solution of Strychnia employed ..... iii. 142
——— hypodermic injection of large doses, four additional cases (R. Barwell) ..... iii. 143
——— hypophosphites of, in general debility (W. H. Day) iii. 1
Stupor, epileptic, on a fatal case of (Handfield Jones) ..... iii. 123
Sturge (W. Allen), case of rare vaso-motor disturbance in the Leg [with notice of five cases by Weir Mitchell] ..... xii. 156
——— case of partial Epilepsy, apparently due to a lesion of one of the vaso-motor centres of the brain ..... xii. 162
——— case of Spondylitis deformans ..... xii. 204
Subcutaneous injection. See *Hypodermic injection*
——— section. See *Osteotomy* (subcutaneous), *Exostosis* (operation for)
Sulphuric acid, Caries of the knee-joint, treated by local application of (J. W. Haward) ..... vi. 13
Sun-stroke. See *Heat-stroke*
Suppression. See *Urine*
Suppuration of the Elbow-joint, puncture, recovery (W. MacCormac) ..... vi. 113
——— acute, of the middle Ear, causing pyæmia, three cases (H. Weber) ..... viii. 131
——— ——— of the Hand and forearm treated by acupressure of the brachial artery (C. H. Moore) ..... ii. 61
Supra-pubic incision. See *Lithotomy* (supra-pubic), *Bladder*
Supra-renal capsules, encephaloid infiltration of, in a case of Cancer of pylorus (R. Southey) ..... viii. 15

Surgery, bloodless (F. Esmarch) .....viii. 1
SUTTON (Henry G.), examination of the Heart and large vessels in M. Mackenzie's case of exophthalmic Goitre .....i. 15
——— two cases of acute Scurvy .....iv. 23
Sutures, deep, steel pins with vulcanite and rubber pads for, in Amputation at the hip-joint (A. P. Gould).....xii. 175
Sutural junction of Ulnar Nerve, fifteen weeks after its complete severance by a roofing-slate (J. W. Hulke).....xii. 207
Sycosis, parasitic, case of (Tilbury Fox).....vii. 1
Symblepharon, on the operation for, with a new method of treatment (C. B. Taylor) .....ix. 57
Syme's operation for Impermeable Urethra, case of complicated stricture of the Urethra, treated by (C. Heath) .....iv. 121
Syncope, sudden death by in a case of paracentesis for effusion into left pleural cavity (W. H. Broadbent) .....x. 24
Synovitis, acute suppurative, evacuation of the pus, with antiseptic precautions (O. D. Marriott).....xi. 54
Syphilis, case of (Holmes Coote) .....ii. 157
——— on a fatal case of, contracted from the hereditary form of the disease (T. S. Dowse).....x. 169
——— ——— microscopical examination of lung tissue in ditto by S. Coupland .....x. 173
——— syphilitic disease of the base of the Cranium, paralysis of divisions of the fifth, fourth, and third nerve from (W. H. Broadbent) .....iv. 102
——— syphilitic nodes in an infant (M. Payne) .....iv. 61
——— syphilitic tumours in pons and medulla oblongata, in paralysis of left face (W. H. Broadbent) .....v. 173
——— case illustrative of identity of the syphilitic virus in the hard and soft chancre (A. B. R. Myers).....ii. 160
——— treatment of, by hypodermic injection, eight cases (F. Oppert) .....iii. 42
——— *Report* of the COMMITTEE on Temperature in, (1870) (C. Bäumler, A. B. Duffin, Berkeley Hill), with temperature tables .....iii. 170
——— congenital, case of thickening of the Cranial Bones in an infant, due to (R. Bridges) .....xii. 140
——— constitutional, case of Muscular Tumour and of phlebitis in a patient the subject of (E. H. Greenhow) .....vi. 143
——— hereditary, case of with paralysis of both arms appearing after Vaccination (J. J. H. Bartlett) .....iii. 33
——— secondary, case in which it exhibited itself twenty-three years after primary infection (E. Venning) .....viii. 62

Syphilis, tertiary, cases of, occurring at a long interval after other constitutional symptoms (P. G. Hewett) .....vi. xli
——— Bright's disease in a syphilitic subject, death, kidney large and pale (R. Southey).....vii. 9
——— case of Hæmoptysis in a syphilitic patient (R. Farquharson) viii. 71
——— case of Hemiplegia in a syphilitic subject (J. Hughlings Jackson).....iv. 183
——— facial Neuralgia reinduced by, and attended with ocular paralysis, &c. (F. E. Anstie) .....iv. 192
——— sequel of a case of syphilitic Neuralgia (F. E. Anstie) v. 43
——— See *Paralysis* (syphilitic), *Rheumatism* (syphilitic)
Syphilis, vaccino-, case of (Thos. Smith).....iv. 53

TAIT (Lawson), case of encephaloid Cancer of the femur treated by Electrolysis.....iv. 145
Taliacotian Rhinoplasty, case of (W. MacCormac).....x. 181
Talipes varus treated by the removal of a wedge of bone from the tarsus (T. Bryant, reported by C. Wood) .....xii. 36
Tapping, case of Bronchiectasis and localised Empyema treated by (C. T. Williams) .....xii. 47
——— of a fœtid Pyo-pneumo-thorax (C. T. Williams) ...xii. 122
——— of the chest. See *Paracentesis* thoracis
——— of a Hydatid cyst of the Liver, sudden death (T. Bryant) .....xi. 230
Tarsal bones, second row of, drawn under the malleoli in a case of excision of the os calcis and astragalus (F. Jordan).....x. 166
Tarso-metatarsal articulations, excision of, following removal of second metatarsal bone (T. Holmes) .....v. 207
Tarsus, removal of a wedge of bone from, in treatment of talipes varus (T. Bryant, reported by C. Wood) .....xii. 36
Taste, Paralysis of the sense of, following concussion of the brain (B. Yeo).....v. 219
Tatum's (Thos.) paper on 'Tumours of muscles cured by iodide of potassium,' notice of (P. G. Hewett).....vi. xliv
TAYLOR (Charles Bell), on Cataract extraction, with cases.....ix. 55
——— on the operation of Symblepharon, with a new method of treating this affection.....ix. 57
TAYLOR (Frederick), case of unilateral Atrophy, with muscular spasm [athetosis] .....xi. 118
TEALE (John Wm.), case of excessive and long-maintained high Temperature after spinal injuries, with recovery.....viii. 98
——— ——— postscript to ditto .....viii. 103

Teeth, artificial, impaction of a set for five weeks in the Œsophagus, œsophagotomy (W. A. McKeown) .....xi. 233
TEEVAN (W. F.), four cases of operation for unusually large Calculi [by free incision and division of prostate] .....iv. 84
——— four cases of impassable Stricture [of urethra] .....v. 165
——— case of retention of Urine from impassable Stricture, treated by filiform bougies .....iv. 124
——— the results of twelve cases of operation for Stricture of the Urethra as seen when tested by time.....vi. 81

External division of on a grooved staff, good result .....vi. 82
Puncture of bladder through rectum, bad result 82
Puncture of bladder above pubes, good result..... 83
Internal urethrotomy, bad result 83
Immediate dilatation or splitting (3), bad results 83-4
Stricture split (4), bad results..... 84-5
Division of stricture in median line without any guide, good result 85

——— four cases of Sterility after lithotomy .....vii. 179
——— case of Subcutaneous Urethrotomy .....viii. 65
——— case of traumatic Stricture, with numerous penile fistulæ, cured by Otis's operation .....x. 7
——— a case of Cystotomy .....xii. 148
Temperature of the body, influence of remedies upon (J. W. Ogle) v. 71
——— influence of remedies on in disease, notes to J. W. Ogle's paper, containing extracts from various authors on...v. 91–104
——— in traumatic Fever, reference to papers on .....v. 72 (*note*)
——— in Syphilis, *Report* of the COMMITTEE on (1870), [with tables] (C. Bäumler, A. B. Duffin, and Berkeley Hill) iii. 170
——— in a case of Tetanus from lacerated wound of palm, by E. L. Dixon (John W. Ogle) .....v. 76
——— in affections of the nervous system, especially in Tetanus, with observations on the influence of remedies on temperature of the body (J. W. Ogle) .....v. 71
——— High, in diseases of central Nervous system (references to papers upon).....i. 28
——— ——— in Phthisis, three cases of, treated by cool baths (C. T. Williams).....vi. 54
——— ——— in case of sudden death from the nerve centres in Rheumatic fever (H. Weber) .....i. 21
——— ——— before death in acute Rheumatism, three cases (C. Murchison and Burdon Sanderson) .....i. 32

Temperature, High, and delirium in a case of acute Rheumatism treated by cold affusion, death (R. Southey) .....vi. 1
——— ——— and cerebral symptoms in acute Rheumatism, treated with cold baths (E. H. Greenhow) .....vi. 7
——— ——— excessive and long-maintained, after Spinal injuries, with recovery (J. W. Teale) .....viii. 98
——— [Low], great depression of, several days before death, in a case of Atrophy of the Brain (E. H. Greenhow) ..... iii. 164
——— ——— excessive lowering of, and of pulse, in a case of lesion of the upper dorsal portion of the Spinal marrow (A. Nieden) .....vii. 75
——— ——— the value of Quinine in diminishing bodily, in pyrexia. Report of Committee. See *Quinine*
——— CHARTS of.
——— ——— in a case of Enteric fever treated by salicylate of soda (C. Murchison).....x. 188–9
——— ——— in a case of Hæmoptysis followed by inflammatory changes in the lungs (C. Bäumler) .....ii. 94
——— ——— four, of a case of Hodgkin's disease with increase of white blood-corpuscles (W. S. Greenfield) .....x. 49
——— ——— of changes, in a case of Hyperpyrexia, treated by cold bath (H. Weber) .....v. 139
——— ——— during a case of Intestinal obstruction (G. W. Callender) .....vi. 190
——— ——— in traumatic Meningitis (R. Clement Lucas)...xii. 8
——— ——— in R. Southey's case of Pleuritic effusion (R. Southey).....xii. 83
——— ——— in a case of Pyæmia terminated by thrombosis of the veins of one leg (J. W. Ogle).....vii. 143
——— ——— in Pyæmia following perforation of the appendix vermiformis (T. Whipham).....xii. 62
——— ——— wide daily range, in a case of Rheumatism with disease of the heart, &c. (Jas. Andrew) .....v. 229
——— ——— in acute Rheumatism treated by salicylate of soda (J. Cavafy) .....x. 90
——— ——— of cases of Syphilis (Report of Committee) iii. 173–79
——— ——— variations in a case of Tetanus (J. W. Ogle) ...iv. 8
——— ——— of a case of Thrombosis (H. Thompson, M.D.) viii. 20
Temporal region, wound in, causing unilateral trismus (R. Barwell) viii. 27
Tendon ligatures, note on (G. W. Callender) .....xi. 103

Tenotomy and localised Faradisation for cure of paralytic strabismus (R. B. Carter) ..... v. 69
Tent, tangle, introduction of into the Cervix uteri, followed by acute disease of the hip-joint (A. Meadows) ..... iv. 187
Testes, misplaced, cases of (E. Owen) ..... x. 192
Tetanus, fatal cases of, reference to a series of (J. W. Ogle) v. 79 (*note*)
——— on the ninth day in a case of lacerated wound of the outer right knee (C. Holthouse) ..... ii. 94
——— treatment by ice to the spine, belladonna, chloral, wine, and good diet, recovery (J. W. Ogle) ..... iv. 8
——— on Temperature in (J. W. Ogle) ..... v. 71
——— idiopathic, case of (R. Southey) ..... ix. 5
——— ——— acute, treated successfully with large doses of bromide of potassium (R. Southey) ..... x. 146
——— subacute traumatic, successfully treated by Calabar bean (C. Holthouse) ..... ii. 100
'Thermo-cautère,' Petrequin's, excision of a lingual Epithelioma by (R. Barwell) ..... x. 123
Thermometry of traumatic Fever, references to Papers on v. 72 (*note*)
Thigh-bone, see *Femur*
THIN (George), on the microscopic appearances of the Skin in a case described by Morrant Baker (in vol. viii. of the 'Transactions,' p. 51) [with plate of microscopic specimens] ... x. 198
THOMPSON (Henry, M.D.), case of Ascites treated with copaiba, quinine, and iron ..... iii. 26
——— case of Diabetes, treated with opium ..... iv. 153
——— case of Thrombosis, with a needle found imbedded in the thrombus [with a chart of temperature during earlier stages of the disease, and woodcut showing position of needle in the thrombus] ..... viii. 19
——— ——— *autopsy*, from the report of R. H. Lucas ... viii. 23
——— case of Hysteria, with contraction of the lower limbs, anæsthesia and ischæmia in a boy ..... xi. 5
THOMPSON (Sir Henry), operations for loss of a large portion of male Urethra ..... iv. 68
Thompson (E. Symes), *report* on Dr. Marcet's case of temporary loss of Voice ..... i. 91
——— See *Report* of Committee on Quinine
Thoracentesis. See *Paracentesis* thoracis
THORNTON (W. Pugin), two cases of Thyrotomy for the removal of growths from the larynx ..... vi. 90

THORNTON (W. Pugin), case of exceeding infrequency of Pulse [with sphygmographic tracings] .....viii. 95
——— case of acute Œdema of the larynx .....ix. 68
——— case of repeated Tracheotomy .....x. 99
——— case of Tracheotomy in the last stage of Diphtheria, recovery.....xii. 121
THOROWGOOD (John C.), two cases illustrating the curative action of Ipecacuanha in diarrhœa.....vi. 171
——— case of optic Neuritis, with complete loss of vision, recovery under treatment .....viii. 80
Thrombosis of cavernous sinus, sudden loss of vision, &c. (T. S. Dowse).....ix. 47
——— of the veins, cases in private practice (P. G. Hewett) vi. xxxvii
——— ——— case of, with a needle found embedded in the Thrombus (H. Thompson) .....viii. 19
——— ——— the cause of death in an Amputation at the hip-joint (A. P. Gould).....xii. 176
——— ——— connection of hæmorrhagic Retinitis with (J. Hutchinson) .....xi. 132
——— ——— of one leg, the termination of a case of Pyæmia (J. W. Ogle) .....vii. 139
Thyrotomy for the removal of Growths from the Larynx, two cases (W. P. Thornton).....vi. 90
Tibia, Necrosis of, and acute Arthritis of knee-joint in an infant, amputation, recovery (G. Brown) .....ix. 175
——— case of sub-periosteal Resection of the shaft of (C. Heath) x. 132
Tinea circinata [Ringworm], cases of, communicated from the horse (Tilbury Fox) .....iv. 106
——— ——— complicated with tinea versicolor (M. Morris) xi. 186
——— favosa, or favus of the scalp, case of (D. Duckworth) vii. 156
——— ——— of the scalp and body (D. Duckworth).....viii. 107
Tissues, soft, of the body, description of the Sarcotome, an instrument for painlessly cutting (W. A. Hollis).....vii. 138
Tobacco-smoking, as a cause in a case of cancer of the tongue (G. Brown).....x. 129
Toes, hammer, cases of, showing their relation to spinal mischief (T. W. Nunn) .....xi. 153
Tongue. See *Artery* (Lingual)
——— cancer. See *Cancer* of Tongue

Tongue. See *Epithelioma* (lingual)

Transplantation of Skin. See *Skin-grafting*
TREND (H. G.) case of Purpura rheumatica .....ix. 74
Trismus, with facial Neuralgia and palsy, and a recurrence of Epilepsy excited by a foreign body in a wound on the cheek (Geo. Johnson) .....vi. 38
——— unilateral, caused by a Wound in the temporal region (R. Barwell).....viii. 27
TROTTER (J. W.), case of Hæmoptysis in a syphilitic patient (R. Farquharson).....viii. 72
Tubercular peritonitis, case of Intestinal Obstruction caused by (C. Wolston) .....x. 1
Tuberculosis, general Miliary, complicated with pyæmia, caused by chronic inflammation of the middle ear (H. Weber)...viii. 131
Tuberculous child, case of undescribed eruption occurring in a (T. Barlow).....x. 196
Tumour of back, removed by elastic ligature (H. Lee) .....viii. 48
——— Cerebral, case of (A. B. Duffin).....ix. 183
——— small, in Cerebellum (W. H. Broadbent) .....v. 66
——— in the left hemisphere of the Cerebellum, with smaller tumour in the right half of the medulla oblongata (T. Buzzard).....vii. 165
——— in left half of floor of fourth Ventricle, with small one in cerebellum (W. H. Broadbent) .....v. 66
——— occupying entire right occipital lobe, in a case of left Hemiplegia (W. H. Broadbent) .....v. 233
——— on upper part of second ascending parietal convolution, in a case of left Hemiplegia (W. H. Broadbent) .....v. 233
——— of the cavernous sinus, paralysis of some cranial nerves referable to, cured by iodide of potassium (W. Moxon) v. 45
——— from floor of orbit, removal without injury to the eye (G. Lawson) .....ix. 33
——— congenital, from arrested development of bones of the skull (J. Hutchinson).....ix. 15
——— ——— or induration of sterno-mastoid Muscle, its nature (Thos. Smith) .....iv. 70
——— Epitheliomatous, of the upper Maxilla, treated by excision of the disease and the application of escharotics (G. Lawson). vi. 20

Tumour, congenital Fatty (E. Venning).....ix. 51
——— Hydatid. See *Hydatid*
——— soft Malignant, in the Parotid region, cured by caustics, no return three years subsequently (Henry Arnott) .....vi. 85
——— Melanotic, of the Eye, treated by excision of the globe and application of chloride of zinc paste (G. Lawson) .....v. 1
——— Myeloid, excision of lower half of Ulna for, recovery (R. C. Lucas).....x. 135
——— Muscular, and Phlebitis, case of, with plugging of the superficial veins of both legs, in a patient the subject of constitutional syphilis (E. H. Greenhow) .....vi. 143
——— ——— cured by iodide of Potassium, notice of Mr. Tatum's paper on, 1845 (P. G. Hewett).....vi. xliv
——— Recurrent, of the Breast (J. W. Haward).....vii. 106
——— Syphilitic, in pons and medulla oblongata, in a case of paralysis of left face (W. H. Broadbent) .....v. 173
Tympanic membrane, traumatic Rupture of, five cases (W. B. Dalby) .....vi. 178
——— ——— Incision of, for removal of a solid growth from the Tympanum (Jas. Hinton) .....ii. 75
Typhoid Fever, on the etiology and contagious character of (Sir W. Jenner's address) .....viii. xxxvii, xliv
——— gas in the peritoneal cavity in, relieved by puncture (Geo. Brown).....xii. 235
——— abstracts of cases treated with Quinine, by H. Weber iii. 204–10
——— cases treated by Salicin &c. (H. Weber) .....x. 77
Typhus Fever, period of Incubation of (C. Murchison).....xi. 244
——— abstracts of cases treated with Quinine, by C. Murchison iii. 211–18

Ulcer of the tongue, with gland disease (J. Hutchinson).....ix. 17
——— rodent, of the scalp, removal by operation (W. M. Baker) xii. 196
——— scrofulous, of the Bladder, running an unusual course (E. Humby) .....viii. 50
——— vascular, of the Cornea, four cases, treated by seton in the skin of the temporal region (Spencer Watson).....i. 17
Ulna, whole shaft of, removed in a case of acute Necrosis (R. Barwell) .....viii. 118
——— excision of lower half of for Myeloid tumour, recovery (R. C. Lucas).....x. 135

Ulna, excision of lower end of, in a case of Myeloid sarcoma of the left radius (H. Morris) .....x. 138
Urethra, stricture of, objections to Syme's operation for .....v. 172
——— ——— the 'La Boutonnière' operation for (notice of) v. 172
——— ——— the results of twelve cases of operation for, as seen when tested by time (W. F. Teevan) .....vi. 81
——— ——— complicated, treated by Syme's operation for impermeable urethra (C. Heath) .....iv. 121
——— ——— impassable, four cases (W. F. Teevan).....v. 165
——— ——— impermeable, Syme's operation for (C. Heath) iv. 121
——— ——— ditto, causing Retention of Urine, treated by tapping the bladder above the pubes, and external section of the stricture, a catheter being passed through the bladder and a staff per penem as guides (J. W. Hulke) .....xii. 178
——— ——— traumatic, with numerous penile fistulæ, cured by Otis's operation (W. F. Teevan) .....x. 7
——— ——— ditto, from compound fracture of the pelvis, suprapubic incision into the bladder for relief of (H. G. Howse) xii. 9
——— operation for loss of a large portion of male (Sir H. Thompson) .....iv. 68
——— penile, case of large Calculi from a sac communicating with (E. Bellamy) .....xi. 22
Urethrotomy, external, for extraction of a Foreign body in the bladder (C. Heath) .....xii. 143
——— subcutaneous, case of (W. F. Teevan) .....viii. 65
Urine, *table* of colour, reaction, albumen, &c. in a case of Bright's disease in a syphilitic subject (R. Southey) .....vii. 15
——— analysis of in two cases of Chorea (Handfield Jones) iv. 88
——— *table* of daily quantity of sugar in, in a case of Diabetes treated by Opium (J. B. Sanderson) .....ii. 165
——— daily *table* of quantity passed, total quantity of sugar excreted, &c. in the twenty-four hours, in a case of Diabetes treated with skimmed Milk (E. H. Greenhow).....vi. 186
——— *table* of daily report of state of, in a case of Diabetes mellitus treated by Opium (F. W. Pavy) .....ii. 46
——— ditto, second case (F. W. Pavy) .....ii. 45
——— *report* on specimens of, in cases of paroxysmal Hæmaturia i. 56
——— incontinence of, in a case of Cystitis, treated by injection of opiates into the bladder (J. Cooper Forster) .....vi. 18

Urine, retention of, from impassable Stricture, treated by filiform bougies (W. F. Teevan) .....iv. 124
——— ——— caused by impermeable urethral Stricture, treated by tapping the bladder above the pubes, and later by external section of the stricture, &c. (J. W. Hulke) .....xii. 178
——— suppression of, case of, very slowly fatal (Sir James Paget) ii. 171
——— ——— in a case of chronic Lead-poisoning (T. S. Dowse) viii. 124
Urticaria, factitious, in a case of anomalous mottled rash (A. Sangster) .....xi. 161
Urticaria pigmentosa, case of (Thos. Barlow) .....xii. 72
Uteri, cervix, introduction of a tangle tent into, followed by acute disease of the hip-joint (A. Meadows) .....iv. 187

Vaccination, eruption from infection from a horse resembling eruption from (J. Langton) .....x. 121
——— hereditary Syphilis with paralysis of both arms, appearing after (J. J. H. Bartlett).....iii. 33
Vaccino-Syphilis, case of (Thos. Smith) .....iv. 53
Vagabond's discoloration simulating the bronzed skin of Addison's disease (E. H. Greenhow) .....ix. 44
Valves. See *Aortic, Mitral*
Varicella, period of Incubation of (C. Murchison) .....xi. 240
Varicocele, operation for (Henry Lee) .....i. 73
Variola. See *Roseola* variolosa
Vegetations. See *Mitral Valve*
Veins, blocking or plugging of, cases in private practice (P. G. Hewett) .....vi. xxxvii

Veins, saline Injection into, in treatment of a case of Cholera (C. Murchison) .....ii. 174
Venesection, case of Convulsions treated by (W. H. Broadbent) xi. 55
——— See *Bleeding*
Venning (Edgcombe), case of Syphilis in which secondary disease exhibited itself twenty-three years after primary infection viii. 62
——— case of congenital Fatty tumour [with illustration] ...ix. 51

Ventricle, fourth, of Brain, case of Tumour in left half of floor of (W. H. Broadbent) ....v. 66
Ventricles of the Heart, hypertrophy and dilatation of, imperfection of aortic valves, &c., dropsy (S. O. Habershon) .....v. 57
——— ——— right, tapped by error in a case of dilated heart, without harm, and with relief of symptoms (G. H. Evans) viii. 169
Veratrum viride in Rheumatism [with six cases] (Alex. Silver) iv. 77
Vertebræ, cervical, fracture and partial dislocation of third and fourth, in cases of lesion of the spinal marrow exhibiting phenomena of heat-stroke (H. Weber) .....i. 163
Vertigo, simulating Brain disease, and produced by strain of the convergence muscles of the eyes (R. B. Carter) .....viii. 12
Vessels, femoral, arterio-venous Aneurism of, caused by a pistol-shot (J. W. Hulke) .....viii. 175
——— See *Arteries, Veins*
Vision, complete loss of, in a case of optic Neuritis, recovery under treatment (J. C. Thorowgood) .....viii. 80
——— sudden loss of, in Thrombosis of cavernous sinus (T. S. Dowse) .....ix. 47
——— iridectomy for improvement of (R. B. Carter).....ix. 1
——— See *Eye*
Vocal cords, removal of (both true and false), preservation of the voice (J. B. Yeo and J. Lister) .....xi. 104
Voice, temporary loss of, successfully treated by Galvanism (Wm. Marcet) .....i. 88
——— preservation of, in a case of removal of the Vocal cords (J. B. Yeo and J. Lister) .....xi. 104
Vomiting in a case of left Hemiplegia, with convulsion of paralysed parts (W. H. Broadbent) .....v. 233

Wade (G. H.), case of poisoning by concentrated solution of Camphor (G. Johnson).....vii. 32
Walker (J. Burnley), case of left Hemiplegia and Hemi-anæsthesia, with diminution of motor power and of sensation, with loss of speech, impairment of mental faculties, ataxy, &c., probably due to Embolism of basilar artery.....xi. 32
Walsham (W. J.), case of localised Hypertrophy of the scalp, x. 32
Wasting and repair of Muscles, unusually rapid, in a case of syphilitic paralysis (F. E. Anstie) .....vi. 15
——— of muscles of lower extremities, following injury to lower part of Spinal cord (J. Aikman) .....xi. 16
——— See *Tongue*

Water-immersion, daily, in treatment of Psoriasis (B. Squire) xi. 90
Watery fluid, dropping from the nostril in a case of Polypi of the antrum (Sir James Paget) ....xii. 43
——— ——— case described by Dr. Elliotson and Sir Benjamin Brodie ....xii. 45
WATSON (Spencer), four cases of vascular ulcer of the Cornea, recently treated by seton in the skin of the temporal region i. 17
——— cases of parenchymatous Keratitis, associated with acute Rheumatism ....iv. 1
——— Nævus of the orbitar cellular tissue treated by ligature and the actual cautery [with woodcuts] ....vi. 166
——— on subconjunctival Sclerotomy as a remedy for glaucoma ix. 139
——— two cases of Lupus ....xi. 201
WATSON (Sir Thomas), *inaugural address*, as President, Jan. 1868 i. 1
WEBER (Hermann), two cases of sudden death from the nerve centres in Rheumatic fever with excessive temperature before death ....i. 21
——— two cases of Lesion of the cervical portion of the Spinal marrow exhibiting the phenomena of heat-stroke ....i. 163
——— on Hæmoptysis as a cause of inflammatory processes and phthisis, with remarks on treatment ....ii. 143
——— case of Hyperpyrexia (heat-stroke) in Rheumatic fever, successfully treated by cold baths and affusions....v. 136
——— on the communicability of Consumption from husband to wife [nine cases] ....vii. 144
——— three cases of Pyæmia caused by acute suppuration of the middle ear, and one of general miliary tuberculosis complicated with pyæmia, caused by chronic inflammation and caseous deposit in the same locality....viii. 131
——— cases illustrating the treatment of Rheumatic fever, and some other febrile diseases by Salicin and its congeners...x. 63
——— See *Report* of Committee on Quinine
——— See *Nieden*, on lesion of spinal marrow
——— See *Schliep* on the stomach-pump
WELLS (T. Spencer), *remarks* in the discussion on pyæmia vii. xcviii
WEST (Jas. W.), effect of Acupressure on the femoral and profunda arteries ....i. 121
WHEELHOUSE (Claudius G.), aneurism of the external iliac artery

cured by five hours' continuous pressure with Lister's abdominal tourniquet applied on the abdominal aorta, while patient under influence of ether, [with sphygmographic tracings] vii. 51

WHIPHAM (Thomas), fatal Pleuro-pneumonia in the case of a man, aged 56, addicted to the abuse of morphia, alcohol, and bromide of potassium.....viii. 108

——— perforation of the Appendix cæci vermiformis and cæcum by a pin, abscess external to the cæcum, pyæmia, paracentesis, &c. [with chart of temperature] .....xii. 58

WILKS (Samuel), cases of Cardiac disturbance in connection with Nephritis.....iii. 103

WILLIAMS (C. J. B.), *report* on Drs. Cockle and Anstie's case of congenital aortic disease..... i. 125

WILLIAMS (C. Theodore), three cases of rapid Contraction of Cavities in Phthisis (caseous pneumonia) .....v. 27

——— sequel to a case of a rapidly contracted cavity in Phthisis [vol. v. 1871, p. 29].....x. 27

——— three cases of Pyrexia in phthisis treated by cool baths vi. 54

——— cases of spasmodic Asthma treated with hydrate of chloral vii. 2

——— case of contraction of a tinkling Cavity in chronic Phthisis x. 113

——— case of Bronchiectasis and localised Empyema treated by tapping .....xii. 47

——— case of tapping a fœtid Pyo-pneumo-thorax .....xii. 122

——— See *Guinier* on laryngeal gargling

WOLSTON (Christopher), case of Intestinal Obstruction caused by tubercular peritonitis.....x. 1

Women, on a cretinoid state supervening in adult life in, two cases (Sir W. Gull) .....vii. 180

Wood (C.), *report* of Mr. T. Bryant's case of Talipes varus treated by the removal of a wedge of bone from the Tarsus xii. 36

WOOD (John), *reference* to notes by him on a case of wry-neck vi. 118

Woodhall water, two cases of lupus erythematosus treated by (T. W. Nunn).....v. 4

——— analysis of its constituents by Mr. West, of Leeds.....v. 5

Wound, of Knee-joint, extensive, treated by Lister's method (T. P. Pick) .....ix. 12

Wound, of Knee-joint, lacerated, laying open the joint and followed by tetanus on the ninth day (C. Holthouse) .....ii. 94
——— ——— followed by acute inflammation subsiding after ligature of the femoral artery (C. F. Maunder) .....ii. 37
——— of the portio dura, causing facial Palsy (W. B. Dalby) vi. 67
——— in the Temporal region, causing unilateral trismus (R. Barwell).....viii. 27
——— gun-shot, of upper Arm, dividing the brachial artery and median nerve (C. Heath) .....ix. 58
——— ——— of the Leg, amputation below knee-joint, traumatic delirium, fascial abscess of thigh, recovery (J. Crouch)...ii. 43
——— ——— of the Skull (R. C. Lucas) .....xii. 5
——— ——— unilateral, of the Spinal cord (W. R. Gowers) xi. 24
Wounds, note on the dressing of [cleansing with a camel's hair brush] (G. W. Callender) .....vi. 74
Wry-neck, atropine injection in, *reference* to Da Costa's paper on vi. 116 (*note*)
——— *references* to papers on the operation of dividing the spinal accessory nerve for .....vi. 116–17 (*note*)
——— spasmodic, case of (Julius Althaus) .....xii. 85
——— ——— See *Neck* (contraction of muscles of)

Xanthelasmoidea, [?] an undescribed form of skin disease (W. M. Baker) .....viii. 51
——— ditto (T. Fox) .....viii. 51

Yellow fever, fatal case of, occurring in London (A. Leggatt and W. S. Greenfield) .....xi. 187
——— ——— *post-mortem* examination by W. S. Greenfield, xi. 191
Yeo (J. Burney), case of Paralysis of the senses of Smell and Taste following concussion of the brain .....v. 219
——— case of congenital absence of the sternal and costal portions of the Pectoralis major and the Pectoralis minor...vi. 95
——— case of loud musical Cardiac Murmurs, probably produced by rupture of aortic valve .....vii. 155
——— and Joseph Lister, case of multiple papillomatous growths in the larynx, extirpated by complete laryngotomy, removal of vocal cords, preservation of voice, co-existence of thoracic aneurysm .....xi. 104

Zinc, use of in Anæmia and Chlorosis (W. H. Broadbent) ii. 122, 126
——— chloride of, use of the solution of in Abscess connected with diseased joints (C. De Morgan) .....i. 138
——— ——— paste, application of, in a case of Melanotic tumours of the eye, after excision (Geo. Lawson) .....v. 1
——— ——— paste, use of in removal of Melanotic Sarcoma of the eye (Geo. Lawson) .....ix. 31

LIST OF PLATES AND CHARTS.

Chart of temperature in a case of hæmoptysis (C. Bäumler)...ii. 94
Torsion of arteries (fig. 1–2), showing the twisted external coat, and reduplicated middle and internal coats (J. Cooper Forster) iii. 59
Sphygmographic tracings of the pulse in angina pectoris treated by nitrite of amyl (J. B. Sanderson) .....iii. 199
Progressive muscular atrophy: figures showing microscopical appearance of muscular fibres (E. H. Greenhow).....vi. 156
Cases of Anorexia Nervosa or Hysterica:
Miss A., No. 1–2 (Sir W. Gull) .....vii. 22
Miss B., No. 1–2 „ vii. 24
Miss C., No. 1–2 „ vii. 26
Pyæmia, case of, terminated by thrombosis of the veins of one leg: temperature and pulse chart (J. W. Ogle) .....vii. 143
Chronic catarrh of tonsil: papillæ found upon the lining membranes of the crypts and channels of tonsils (A. T. Norton) vii. 178
Rare form of skin disease (W. M. Baker) .....viii. 52
Eye of a patient on whom iridectomy has been performed (R. Brudenell Carter).....ix. 4
Congenital fatty tumour on the right buttock (Edgcombe Venning) .....ix. 52
Large hydatid tumour of the orbit: the choked optic disc (George Lawson).....ix. 136
Case of Hodgkin's disease, with increase of white blood-corpuscles: four charts of temperature (W. S. Greenfield) .....x. 49
Acute rheumatism treated by salicylate of soda: chart of temperature (John Cavafy) .....x. 90
Rare eruption on the forearms, the result of infection from a horse (J. Langton) .....x. 121
Case of enteric fever treated with salicylate of soda: temperature chart (C. Murchison).....x. 188
Microscopical specimens of a rare form of skin disease [Mr. M. Baker's case in vol. viii. of 'Trans.'] (Geo. Thin).....x. 202

Preparations of arteries tied by carbolised catgut ligatures, fig. 1–4 (T. Bryant).....xi. 2
Cerebro-spinal lateral sclerosis: fig. 1–4, microscopical sections of the medulla oblongata and spinal cord (Thos. S. Dowse) xi. 20
Case of iodide of potassium eruption (Tilbury Fox) .....xi. 48
Hæmorrhagic retinitis, two cases (J. Hutchinson) .....xi. 132
Anomalous mottled rash, 'urticaria pigmentosa' (A. Sangster) xi. 162
Follicular mal-nutrition, 'cacotrophia folliculorum' (Tilbury Fox) xi. 168
Œsophagotomy, for impaction in œsophagus of artificial teeth: figs. 1–2, front and back views of artificial teeth, natural size (W. A. McKeown).....xi. 236
Chart of temperature in traumatic meningitis (R. Clement Lucas) xii. 8
Chart of temperature in pyæmia following perforation of the appendix vermiformis (T. Whipham) .....xii. 62
Polypi of the antrum (Sir. Jas. Paget) .....xii. 46
Intestinal obstruction: fig. 1, gallstone causing obstruction; fig. 2, gallstone removed by operation from the ileum (Thos. Bryant) .....xii. 108
Gangrene of the lung treated by incision (Wm. Cayley) ...xii. 138
Fig. 1., patient affected with ichthyosis of unusual character; fig. 2, vertical section through the diseased skin (magnified) (H. R. Crocker) .....xii. 182
Hand of the same patient affected with ichthyosis (H. R. Crocker) xii. 182
Early and late stages of lichen scrofulosorum (Tilbury Fox) xii. 190

LIST OF WOODCUTS.

Case of acute rheumatism with high temperature: sphygmographic tracing (J. B. Sanderson) .....i. 35
Congenital aortic disease (Drs. Cockle and Anstie), sphygmographic tracings (J. B. Sanderson).....i. 122
Condition of circulation in Bright's disease: sphygmographic tracings (J. B. Sanderson).....i. 171
Two diagrams of cases of phthisis with contracted lung (R. D. Powell).....ii. 182–3
Section of a concretion in the orbit (J. Croft) .....iii. 51
Temperature tables of cases of syphilis (Report of Committee) iii. 173–79
Instrument for paracentesis thoracis (R. Douglas Powell) ...iii. 240
Occlusion of arteries after acupressure (F. J. Gant) .....iv. 98–101
Microscopic appearance of a case of tinea circinata communicated from the horse (T. Fox).....iv. 109–11
Cancer, rodent, of the face (J. W. Hulke) .....v. 23
Atrophy, unilateral face, from chorea (T. Buzzard) .....v. 149
Gangrene of feet from disease of the heart (F. J. Gant) .....v. 180
Case of elephantiasis Arabum, 'Dermatolysis' (G. Fritsche) vi. 163
Nævus, intra-orbitar, treated by actual cautery (W. Spencer Watson).....vi. 167
——— ditto, shields, and cautery iron (W. Spencer Watson) vi. 169
Case of aneurism of external iliac cured by continuous pressure on the abdominal aorta: sphygmographic tracings (C. G. Wheelhouse) .....vii. 55
Case of orbital sarcoma treated by excision and cautery: microscopical appearance of a section of the growth (R. B. Carter) vii. 63
Bracketed splint for excisions of the knee or for compound fractures (J. H. Packard) .....vii. 97
Recurrent and myeloid tumours of the breast: microscopic appearances (J. W. Haward).....vii. 108–9

Temperature chart of a case of thrombosis (H. Thompson) viii. 20
Aorta and vena cava, showing position of a needle imbedded in the tissue and thrombus (H. Thompson) .....viii. 25
Creeping eruption: microscopic appearances (R. J. Lee) ...viii. 46
Case of paralysis of serratus magnus: figs. 1–5, showing the deformity, position of the scapulæ, absence of muscle on right side, sections of the thorax and action of the serrati (G. Vivian Poore).....viii. 85–9
Case of exceeding infrequency of pulse: sphygmographic tracings (Pugin Thornton).....viii. 95
Aneurism of the internal carotid; the internal carotid laid open and the aneurismal sac (J. Hutchinson) .....viii. 128–9
Case of fibroma 'Pachydermatocele'; figs. 1 and 2, before and after removal (G. Fritsche) .....viii. 139–41
Iridectomy for the improvement of sight (R. Brudenell Carter) ix. 1–2
Large melanotic Sarcoma of the eye and orbit, before and after removal by excision and chloride of zinc paste (Geo. Lawson) ix. 32–3
Large hydatid tumour of the orbit with protrusion, removal without loss of the eye (Geo. Lawson) .....ix. 135
Badly-united fracture of bones of the leg, treated by excision of a wedge (C. Heath) .....x. 159
Excision of the os calcis and astragalus (Furneaux Jordan)...x. 167
Case of Taliacotian rhinoplasty, figs. 1–3 (W. MacCormac) x. 182–6
Unilateral gun-shot injury to the spinal cord; contusion between the first and second cervical nerves (W. R. Gowers) .....xi. 27
Severe hæmorrhage following the operation for cleft palate stopped by plugging the posterior palatine canal: fig. 1–2 distribution of descending palatine branch of the internal maxillary artery (Howard Marsh) .....xi. 72
Bilateral paralysis of the posterior crico-arytænoid muscles: fig. 1–3, glottis during phonation, during deep inspiration, and in case of paralysis (F. Semon) .....xi. 147
Imperfect right hemiplegia with slight aphasia: fig. 1–4, sphygmographic tracings of right and left radial pulse (T. Buzzard) xi. 208–9
Litholapaxy: fig. 1, the author's Lithotrite .....xii. 19
——— fig. 2, aspirating siphon.....xii. 20
——— fig. 3, extremities of a straight and curved tube, size 31 (H. J. Bigelow) .....xii. 21
Talipes varus, treated by removal of a wedge of bone from the tarsus, figs. 1, 2, 3 (T. Bryant) .....xii. 37

Apparatus for the clinical estimation of hæmoglobin (W. R. Gowers) ..... xii. 64
Head douche (C. B. Keetley) ..... xii. 145
Intussusception of the ileum into the cæcum through the ileo-cæcal valve: diagram illustrating the invagination (S. Coupland and J. W. Hulke) ..... xii. 221
